HIGHNESS MICROELECTRONICS LIMITED

Date: November 05, 2026

To,
The Manager – Listing Department,
BSE Limited
Phiroze Jeejeebhoy Towers,
Dalal Street, Mumbai, 400001
Maharashtra, India.

Company Scrip Code: 544741

Subject: Investor/Analyst Presentation for the half year ended September 30, 2026.

Dear Sir/Ma'am,

This is further to our letter dated November 02, 2026, intimation about an Earnings Conference Call to be hosted by the Company on Friday, November 06, 2026 at 01:30 p.m. (IST) post announcement of Unaudited Financial Results for the half year ended September 30, 2026.

Pursuant to Regulation 30 of the SEBI (Listing Obligation and Disclosure Requirement) Regulations, 2015, we are enclosing herewith a copy of the presentation to Investor/Analysts on Unaudited Financial Results of the Company for the half year ended September 30, 2026.

The details of Investor/Analyst presentation are attached herewith and also being uploaded on Company's website at https://highnessmicro.com/.

Kindly take the same on your records.

Thanking you,
Yours Faithfully,
For Highness Microelectronics Limited

Microelectronics Ltd

H1 FY27 Investor Presentation

Safe Harbour Statement

This presentation and its accompanying materials (collectively, the "Presentation") have been prepared by **Highness Microelectronics Limited**(“**Highness**," "the Company," or "we") for informational and discussion purposes only. This Presentation does not constitute an offer to sell or solicitation of an offer to purchase any securities, investment advice, or recommendation, nor should it be relied upon as the basis for any investment decision or contractual commitment. Any securities offering by the Company will be made exclusively through formal offering documents containing complete information about the Company, its business, and associated risks.

While the information contained herein has been compiled from sources the Company believes to be reliable, the Company makes no representations or warranties, express or implied, regarding the accuracy, completeness, or fairness of the information presented. This Presentation may not include all material information concerning the Company, and any reliance on this information is entirely at the recipient's own risk. The Company expressly disclaims all liability for any errors, omissions, or inaccuracies
contained herein.

This Presentation contains forward-looking statements concerning the Company's business prospects, market opportunities, and strategic outlook based on current expectations and assumptions. These statements are subject to significant risks and uncertainties, and actual results may differ materially from those expressed or implied. Various factors may cause actual outcomes to vary, including economic conditions in India and internationally, industry trends and competitive dynamics, execution of business strategies, technological developments, revenue variability, market acceptance, regulatory changes, and other business risks. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Any forward-looking statements, projections, or opinions attributed to third parties included in this Presentation are not endorsed by the Company, and the Company assumes no responsibility for their accuracy or reliability. By reviewing this Presentation, recipients acknowledge that they have read, understood, and agree to be bound by the terms of this disclaimer.

About Company

Highness Microelectronics Limited is a vertically integrated company engaged in the **design, development, integration, assembly, and manufacturing of digital imaging solutions.** Over the past two decades, the company has reduced reliance on external sources by strengthening its in-house capabilities, enabling the delivery of high-quality, durable, and commercially viable products.

With an expertise in medical-grade monitors and tailored imaging solutions, Highness serves industries such as **Defence & Aerospace, Railways, Healthcare And Industrial Automation.** The company is also the only Indian manufacturer supplying certain Displays while competing with global foreign giants, demonstrating its technological strength and market positioning.

Their in-house capabilities, combined with robust project management, give them a competitive edge and a strong reputation in the rapidly changing digital imaging market.

Vision Mission & Key Facts

VISION

Enhancing the world around us with Simple, Smart, and Efficient Design and Engineering in Digital Imaging Solutions

MISSION

Minimizing dependencies to strengthen 'Make in India' for both India and the Global Market. Focus on investing in people and research & development for sustainable growth.

Competitive Strengths

HIGHNESS™
One of a kind

Certified Quality Excellence

ISO 13485:2016 and ISO 9001:2015 certified manufacturing, backed by rigorous SOP-driven quality controls to ensure consistent, defect-free output.

Customization-Led OEM Solutions

Extensive expertise in delivering application-specific, customized products aligned with OEM technical and performance requirements

Strong, Repeat-Driven Customer Base

Long-standing customer relationships with consistent repeat business, reinforcing revenue stability and long-term growth.

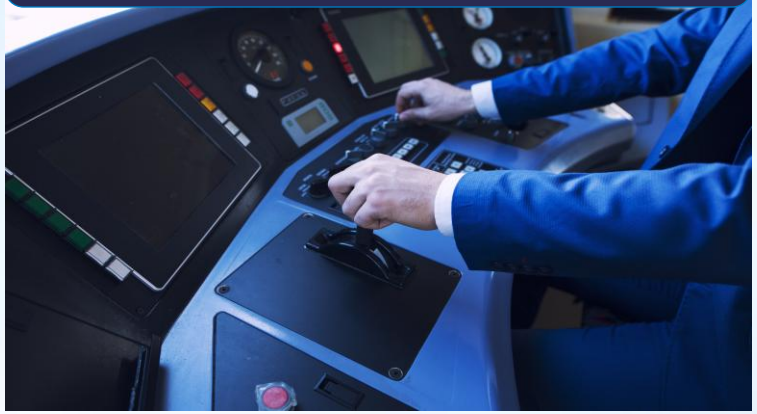

Rugged, Weather-Resilient Products

Products engineered to perform reliably in extreme temperatures, high vibration, and harsh outdoor environments.

17

Business Segments – Industrial Automation

1. Designs and manufactures HMI, rugged, high-temperature, and high-vibration displays for industrial automation, built for harsh high-heat and high-humidity environments.
2. Deployed across **textile machinery, automotive manufacturing lines, and CNC systems**
3. Supplies **industrial-grade displays** for ATMs, kiosks, POS terminals, and ticket vending machines
4. Products engineered for **outdoor use**, resistant to sunlight, heat, dust, and vandalism
5. Offers **value-added customization** by enhancing standard COTS displays, focusing on **brightness optimization and durability**

Business Segments - Medical & Healthcare

1. Manufactures **indigenized, high resolution, speciality-designed, medical-grade surgical monitors** at competitive cost
2. In-house designs for **endoscopy, laparoscopy, and gastroscopy applications**
3. Offers **all-in-one displays with recording,** integrated with **PACS, HIS, and surgical cameras**
4. Enables **Modular Operating Theatre (MOT)** integration for modern hospital setups
5. **ISO 13485 certified** and **CDSCO-licensed** medical device manufacturer

Business Segments - Railways

1. Supplies **indigenized display solutions** supporting India's railway modernization
2. Executed projects for **RTTS, DRM, PIS/PAPIS, and AFC systems** across rail and metro networks
3. Deployments span **locomotives, metro trains, passenger coaches, stations, and ticketing kiosks**
4. In-house capability to **design, integrate, and manufacture** stretched, bar-type, and **sunlight-readable high-brightness displays**
5. Displays engineered for **outdoor and mission-critical Railways environments**

Business Segments – Defence & Aerospace

1. Designs **rugged displays and tablets** engineered for extreme climatic and operational conditions
2. Successfully deployed across **military, naval, and airborne applications**
3. Expertise in **high-brightness, wide temperature operation, night vision compatibility, and optical bonding**
4. Integrates **EMI/EMC shielding and ingress protection** for mission-critical reliability
5. Applications include **artillery systems, naval platforms, paramilitary operations, and tank navigation controls**

Glimpses Of Manufacturing Unit

Rabale, Mumbai
Location

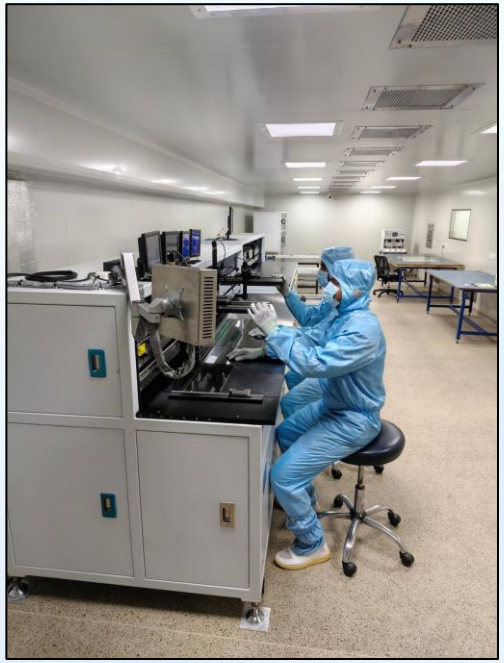

Design-led engineering and customization capabilities create a strong entry barrier, positioning the company beyond assembly into value-added display innovation.

- **In-house Assembly Line**: Fully integrated Mumbai facility handling PCB, backlight, touch panel, and mechanical housing assembly.
- **In-house Design Facility**: Internal team creating 2D and 3D/CAD designs for mechanical enclosures.

New Glass Cutting Facility Now Operational at Rabale

Operators at the cutting line

Inside the cleanroom

Cut to your size, in a controlled cleanroom

- Set up and ready to cut glass in-house, the line resizes existing display cells to custom dimensions
- The cut edge is sealed immediately and UV-cured, then a new backlight is attached.
- Contrast, viewing angle and interface stay intact, and the liquid crystal is unharmed.

Custom sizes
Glass cut to your exact dimensions

Weeks, not months
Lead times cut sharply

On-site engineers
Quick design support

Every sheet tested
Strict performance and durability checks

INDIA'S FIRST DISPLAY RE-SIZING TECHNOLOGY

HIGHNESS™
One of a kind

DISPLAY RE-SIZING PROCESS FLOW

1. **POL REMOVAL**
   Safely remove polarizer layer without damaging the glass
2. **PRECISION CUTTING**
   High precision cutting of display glass to required size (±0.1 mm Accuracy)
3. **CLEANING & CHECK**
   Clean the edges and inspect for quality & dimensions
4. **BONDING & SEALING**
   Re-assemble layers and seal for strong and durable bonding
5. **SECONDARY CURING**
   UV curing in 2nd curing chamber for enhanced reliability
6. **QUALITY TESTING**
   100% inspection of dimensions, display performance & reliability
7. **PACKING & DELIVERY**
   Protect, pack and deliver to meet customer requirements

EQUIPMENT WE USE

POL REMOVAL MACHINE
Removes polarizer layer without damaging substrate

PRECISION GLASS CUTTER
CNC cutting for accurate re-sizing with smooth edges

CLEANING STATION
High efficiency cleaning for dust-free & perfect bonding

CURING & SEALING MACHINE
Advanced bonding & sealing for long term durability

UV CURING CHAMBER
2nd curing for strong adhesion & reliability

OPTICAL INSPECTION SYSTEM
High precision inspection for quality & performance

HIGH PRECISION	HIGH RELIABILITY	COST EFFECTIVE	100% QUALITY	PROUDLY INDIA
±0.1 mm Accuracy	Enhanced Bonding & Durability	Save on Tooling & Development	Tested for Perfect Performance	Designed, Developed & Manufactured

INDIA'S FIRST COMMERCIAL TFT LCD DISPLAY RE-SIZING FACILITY

Enabling custom display development without the need for new LCD panel tooling.

WHY IT MATTERS

INDIA FIRST CAPABILITY
Pioneering re-sizing technology in India

IMPORT SUBSTITUTION
Reduce dependency on imported custom displays

FASTER PRODUCT DEVELOPMENT
Quick turn-around for prototype to production

LOWER TOOLING COST
Re-size existing panels instead of developing new ones

CUSTOM SIZES ON DEMAND
Flexible solutions for unique application requirements

WIDE APPLICATIONS

Medical | Industrial & More

Custom Display Solutions | Faster Development | Lower Cost | Made in India

New TFT-LCD Manufacturing Facility in Goa

- ✓ Highness Microelectronics Ltd plans to set up a TFT-LCD module manufacturing plant at the Electronic Manufacturing Cluster, Tuem, Goa. The company has received an allotment **offer for 5,000 sq. meters** of land to establish an advanced facility with COG & FOG lines and a Glass Cutting & Resizing line.
- ✓ The new unit will enhance manufacturing capabilities and include an in-house R&D centre to drive innovation, along with an Endurance & Environmental Testing Lab to ensure display reliability.
- ✓ The COG & FOG lines will enable production of **Upto 8000** small and medium-sized displays daily, catering to Industrial Automation, White Goods, Automobiles, and select Medical Devices segments.
- ✓ An in-house metal shop will further strengthen capabilities by enabling internal enclosure fabrication instead of outsourcing.

Business Strategies

Portfolio Expansion with Backward Integration

Expanding product portfolio across key sectors with new machinery and in-house COG/FOG lines to improve quality, reduce dependency, and support new product development

Quality Excellence

We follow quality control systems to ensure accuracy, efficiency, and consistency in operations. Continuous monitoring and process improvements help us meet customer expectations and regulatory standards, build trust, and maintain long-term relationships..

Strengthen Stakeholder Relationships

We focus on building long-term relationships with suppliers, customers, and employees. Strong supplier partnerships improve efficiency and costs, while timely delivery strengthens customer trust. Continuous employee training supports productivity and growth.

Attract and Retain Talent

Our employees are key to our success. We focus on skill development, workplace safety, and well-being. Competitive compensation and a positive work environment help retain talent and support future growth

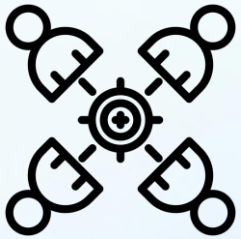

Manufacturing Expansion & Incentives

We have been allotted a 5,000 sq. m. plot in Goa to set up a new facility for TFT-LCD modules, touch screens, and display controllers with COG/FOG lines and R&D capabilities. This expansion will boost capacity, innovation, and efficiency.

Strategic Alliance with Axiom Manufacturing, USA

Highness Microelectronics signed a Strategic Alliance MoU with **Axiom Manufacturing (USA)** to explore collaboration across advanced electronics design, engineering execution, manufacturing capabilities, and technical resource sharing, strengthening its global growth strategy.

Scope of Collaboration

Technical Collaboration

- Advanced electronics architecture
- Design workflows
- Engineering execution support

Resource Sharing

- Technical expertise exchange
- Process guidance and workflow support
- Technical training and capability enhancement

Manufacturing Synergy

- India fulfillment through Highness' SMT, COG & FOG production lines
- U.S. fulfillment through Axiom's manufacturing facilities
- Access to customers across Americas & APAC

Strategic Benefits

- Access to North & South American customers through Axiom's U.S. presence.
- Strengthens positioning as an alternative electronics manufacturing partner.
- Enhances exposure to Defence, Aerospace and SATCOM sectors.
- Combines Axiom's advanced PCB design expertise with Highness' manufacturing strengths.

Participation at SID Display Week 2026, USA

Highness Microelectronics participated in **SID Display Week 2026**, one of the world's leading display technology exhibitions, held at the **Los Angeles Convention Center, USA**, to showcase its display innovation capabilities, promote India's manufacturing ecosystem, and explore global business opportunities.

Strategic Objectives

Promoting Make in India
Represented India's display manufacturing ecosystem and supported the India Semiconductor Mission (ISM).

Global Brand Visibility
Showcased Highness' display technologies and manufacturing capabilities to an international audience.

Export Market Expansion
Explored opportunities to expand presence in international markets and strengthen export potential.

Business Development Opportunities
Engaged with global customers, technology leaders, and potential strategic partners.

Technology Showcase
Demonstrated expertise across Industrial Automation, Medical, Railways, and Defence display solutions.

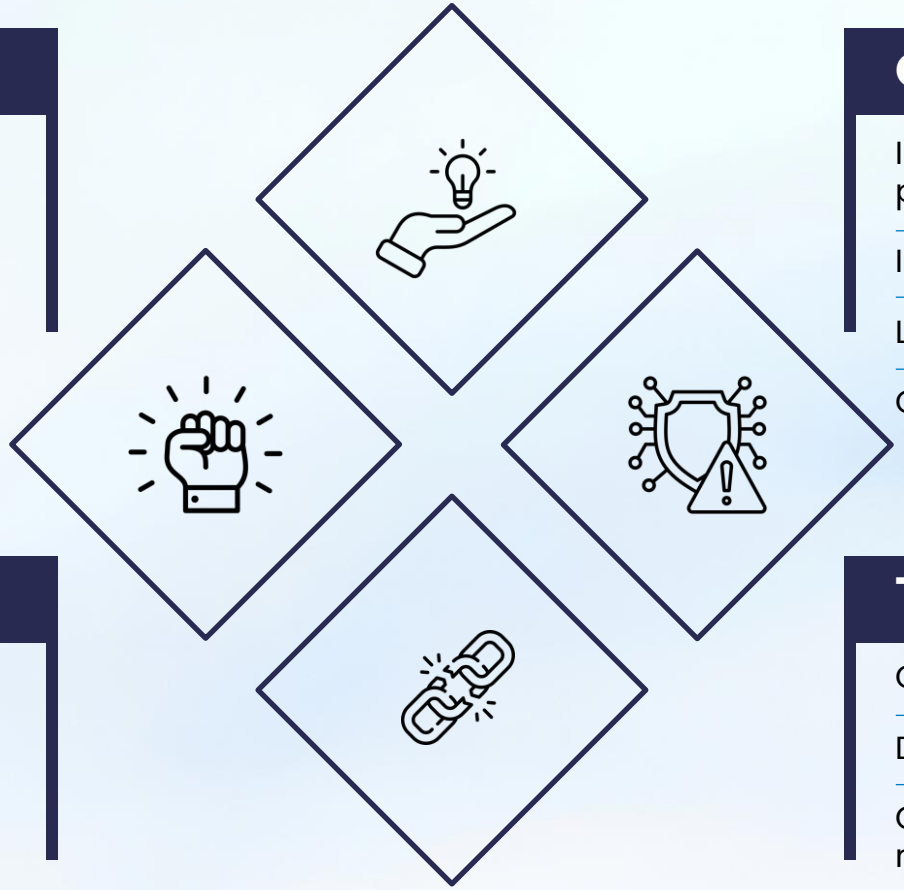

SWOT Analysis

Strengths

Certificated under ISO 9001 & 13485

Localized Manufacturing

Weather resistance display solution

Opportunities

International companies looking for local partners to Make in India gains

Increased spending in healthcare

Localization approach by various industries

Government incentives for local manufacturing

Weakness

Dependencies on third party for some processes Localized Manufacturing

Project gestation period

Threats

Change in Government policies

Delay in realization of incentives

Chinese products making their way to India markets at cheaper cost and poor quality

Management Overview

Mr. Gaurav Manjul Kejriwal

Managing Director

- 23+ years of experience in the display industry
- B.Com in Business Management from the University of Bombay; Business English Certificate from the University of Cambridge
- Expertise in display solutions across industrial, healthcare, Defence , and media sectors; member of SID (USA) and SPIE.

Mr. Manjul Kumar Kejriwal

Non- Executive Director

- He has 45 years of overall experience, out of which he has 23 years in the display industry.
- He founded Highness Microelectronics Limited in 2007, engaged in manufacturing TFT & LCD modules, display controllers, electroluminescent and vacuum fluorescent displays, touch screens, cable assemblies, backlight drivers, and display-enhancement solutions.

Mrs. Shruti Gaurav Kejriwal

Whole Time Director

- She has 11 years of overall industry experience across administration, accounts, and operations,
- She holds a Bachelor's degree in Commerce from D.A.V. (P.G.) College, Dehradun, affiliated to Hemwati Nandan Bahuguna Garhwal University (2001).

Management Overview

Mrs. Jaya Ankur Singhania

Independent Director

- She has 16 years of experience in corporate law, governance, compliance, CSR, IPR, startup and directors' advisory, and POSH training.
- She became a qualified Company Secretary in 2009 from ICSI (Institute of Company Secretaries of India)

Mr. Keval Mahendra Shah

Independent Director

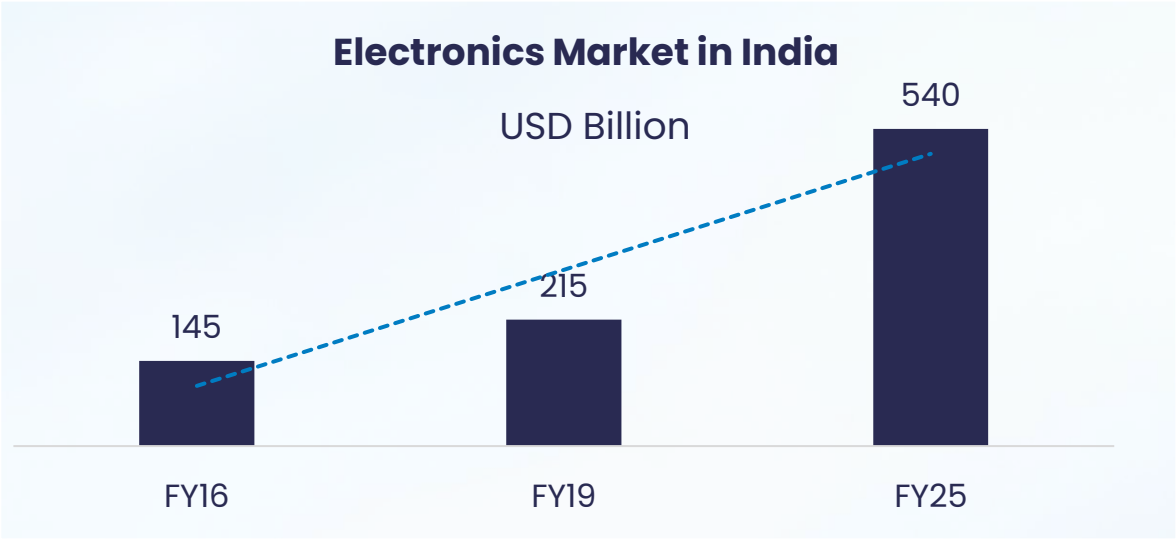

- He has over 10 years of experience in mergers, demergers, restructuring, minority buy-outs, due diligence, inbound and outbound investments, and advisory across income tax, corporate law, securities law, FEMA, exchange control regulations, and stamp duty.
- He became a Chartered Accountant in 2016 from ICAI and completed his B.Com in 2010.

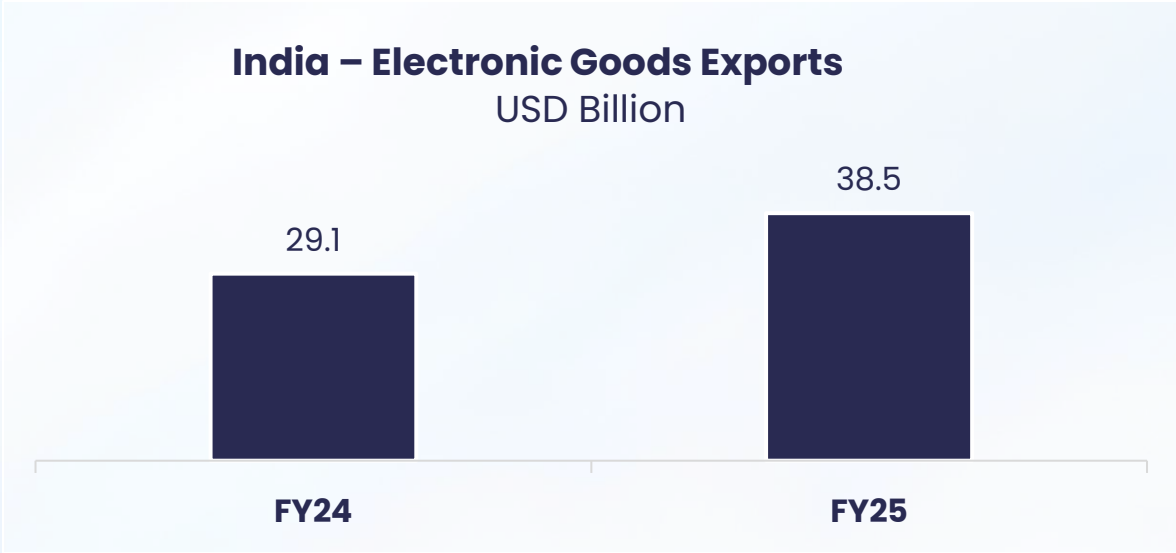

Ms. Kavita Kailash Bohra

Independent Director

- She has over 8 years of experience in audit, assurance, corporate governance, and regulatory compliance]
- She is a Chartered Accountant (ICAI, 2018) with certifications in Information System Audit (ISA), ICAI Registered Valuer (Primary Membership), and CSR & Impact Assessment.

Industry & Market Trends

Key Growth Drivers of the Indian Electronics Industry

1. **Strong Domestic & Export Demand**

   Driven by strong R&D in auto and industrial electronics; India is the second-largest mobile phone manufacturer and electronic exports reached US$ 23.57 billion in FY23 (50.5% YoY).

2. **Global Competitiveness & Talent Advantage**

   India targets **US$ 300 billion** in electronics manufacturing and **US$ 120 billion** in exports by 2025–26, supported by a strong talent base in chip design and embedded software.

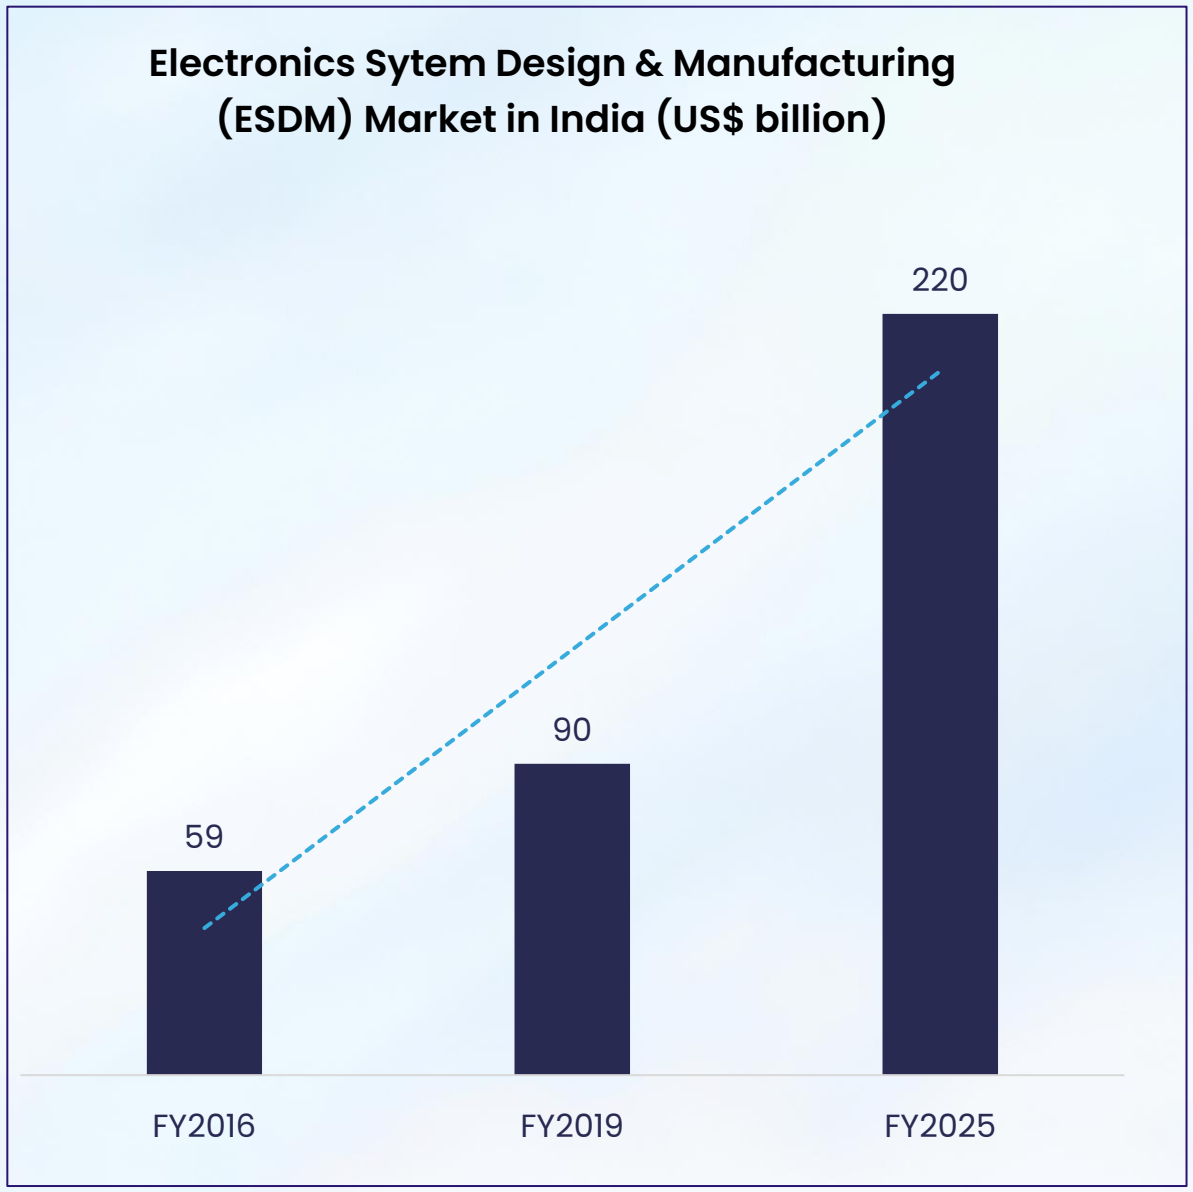

3. **Favourable Government Policies & Incentives**

   Initiatives such as PLI schemes, Make in India, Digital India, and a liberal FDI policy simplify manufacturing setup and encourage investments

4. **Rising Investments & Global Value Chain Integration**

   Post-COVID, India aims to add US$ 400 billion to the electronics sector, including US$ 120 billion in exports, to capture 9–10% of global electronics value chains.

Industry & Market Trends

- India's Electronics System Design & Manufacturing (ESDM) sector is among the fastest-growing industries, driven by strong domestic consumption and policy support.
- It has to expanded from US$59 billion in FY16 to US$220 billion by FY25, supported by increased localization and design capabilities.
- India targets US$500 billion in electronics manufacturing output by FY30, with potential to generate 12 million jobs by FY27.
- Government initiatives such as Make in India, PLI schemes, and digitalisation are accelerating domestic manufacturing.

Industry & Market Trends

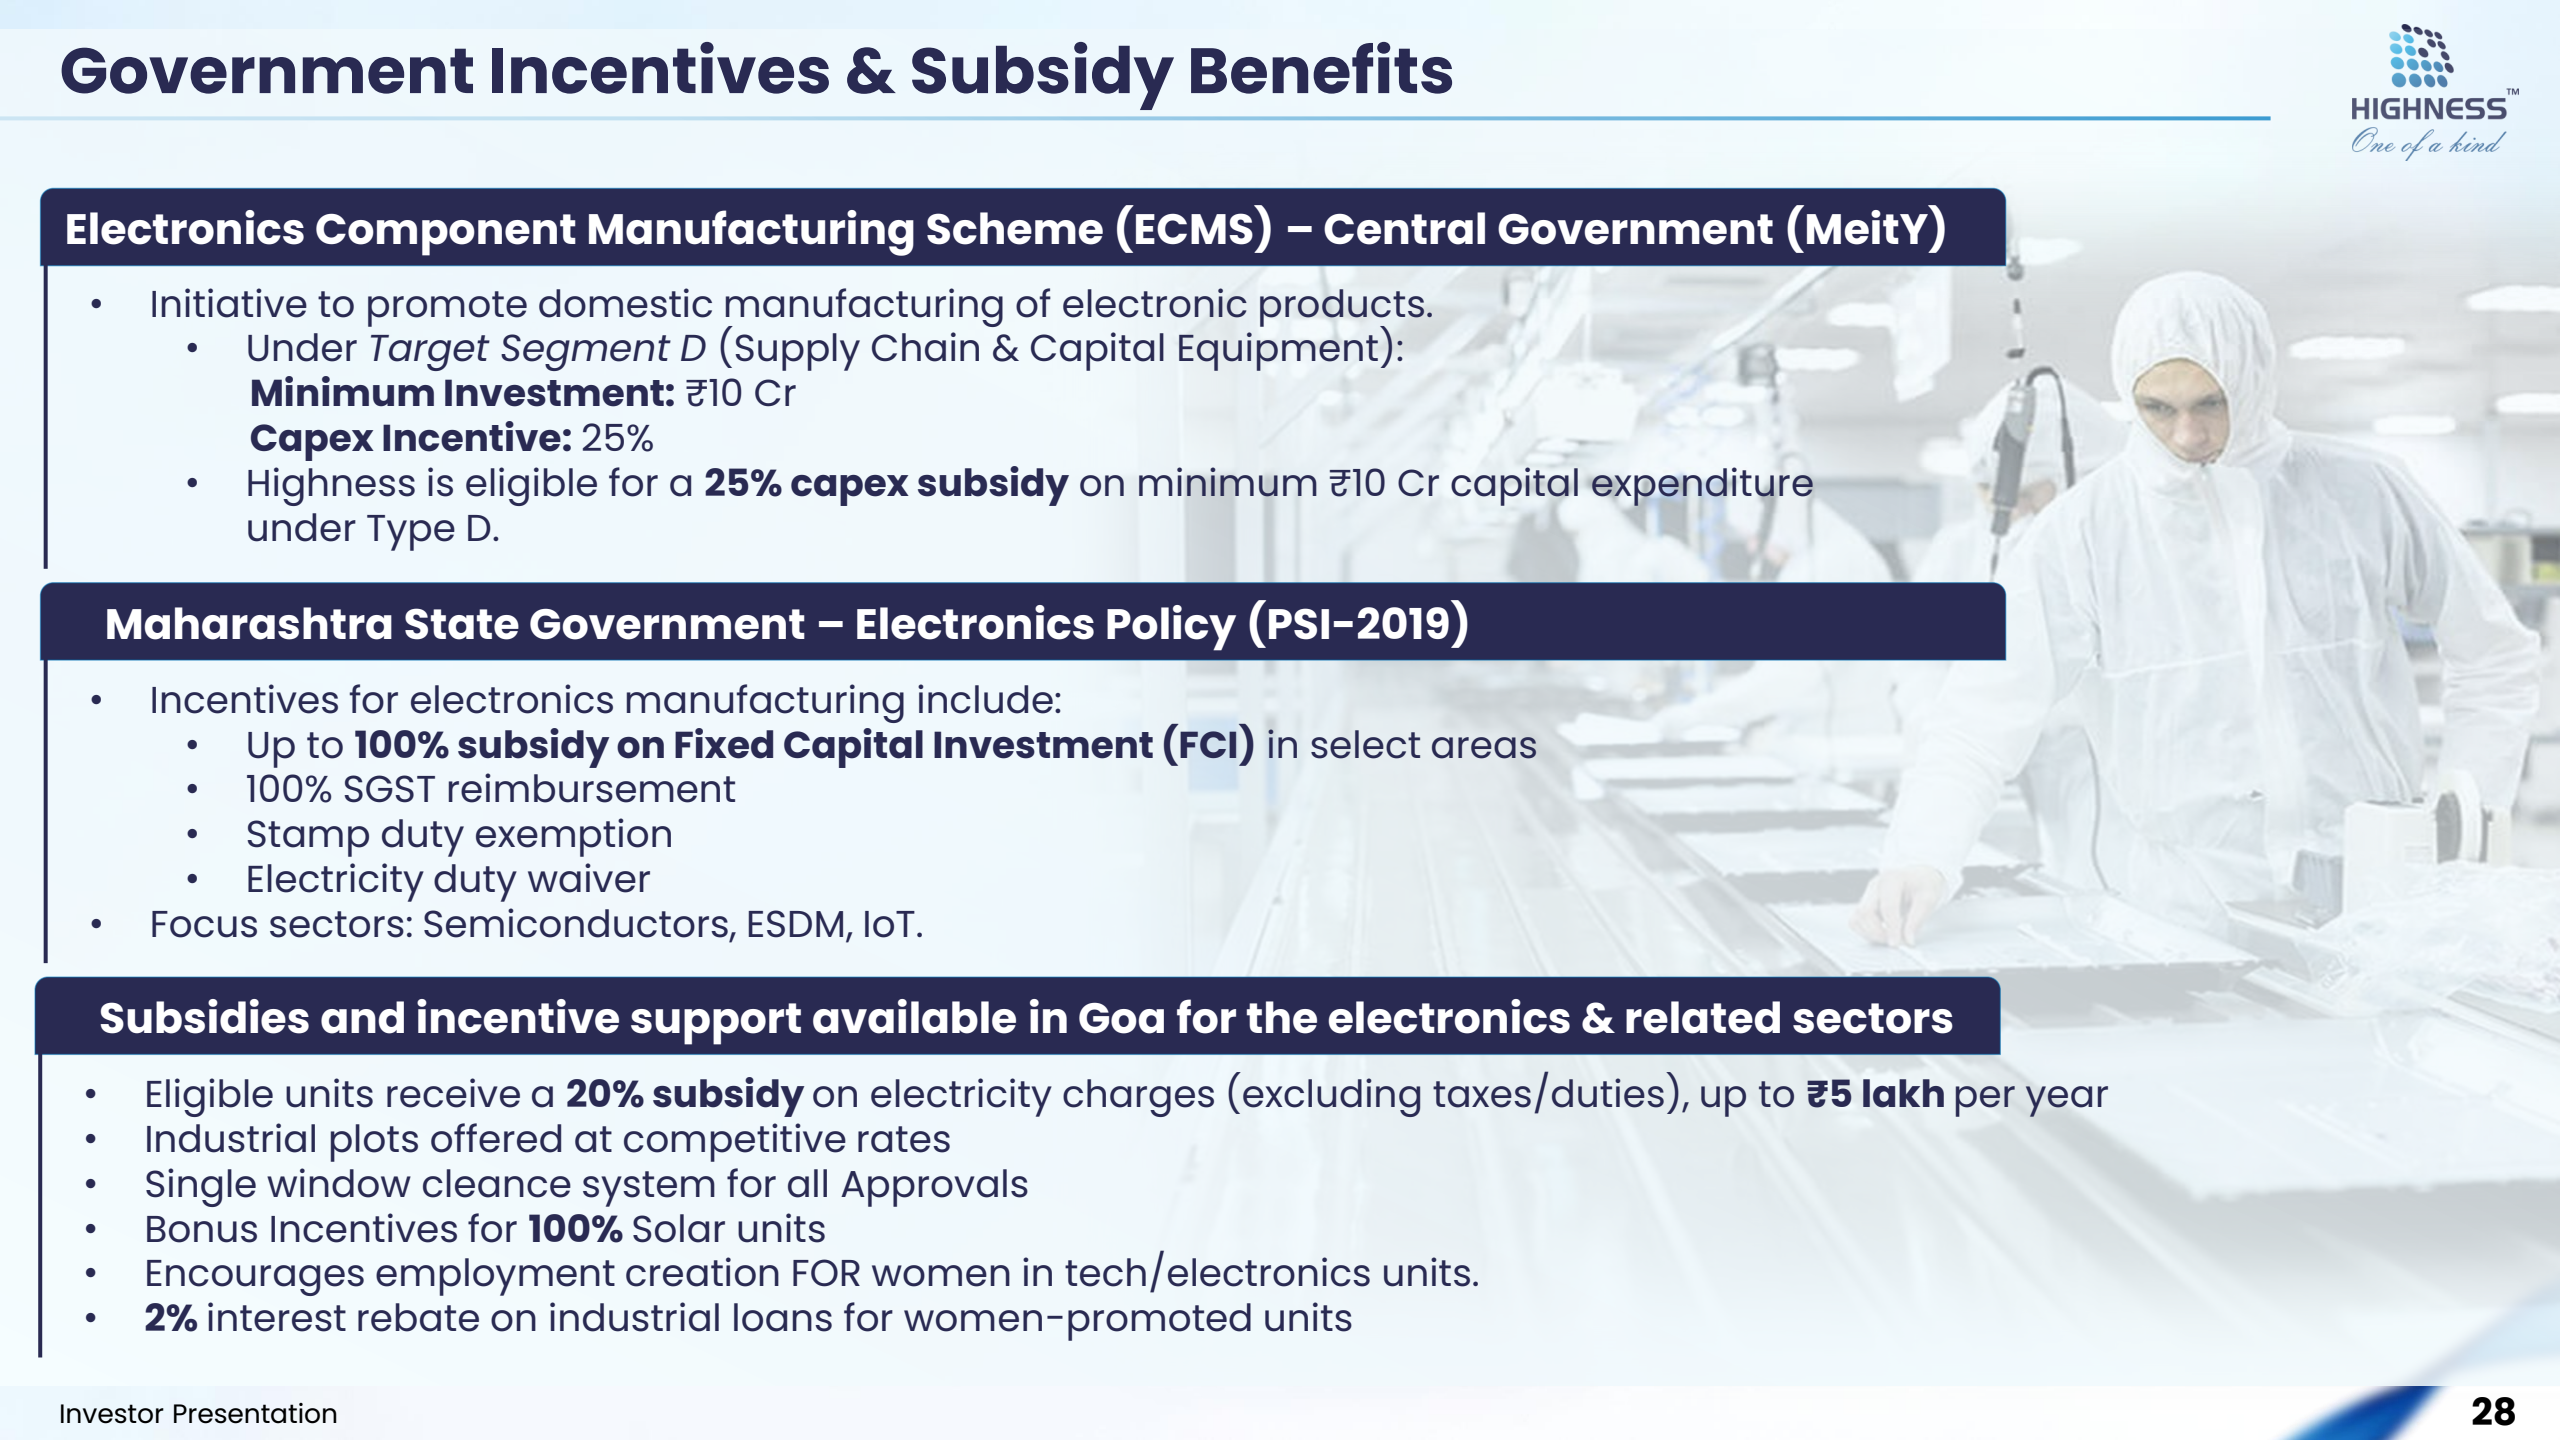

- India industrial display market stood at **USD 380.4 Mn in 2024** and is projected to reach **USD 553.7 Mn by 2030**. **01**
- Expected to grow at a **CAGR of 6.6% (2025–2030)**. **02**
- **Panel-Mount Monitors** were the largest revenue-generating segment in 2024. **03**
- **Open Frame Monitors** are the fastest-growing segment during the forecast period. **04**
- India accounted for **6.4% of the global industrial display market revenue in 2024.** **05**

Government Incentives & Subsidy Benefits

Electronics Component Manufacturing Scheme (ECMS) – Central Government (MeitY)

- Initiative to promote domestic manufacturing of electronic products.
  - Under *Target Segment D* (Supply Chain & Capital Equipment):
    Minimum Investment: ₹10 Cr
    Capex Incentive: 25%
  - Highness is eligible for a **25% capex subsidy** on minimum ₹10 Cr capital expenditure under Type D.

Maharashtra State Government – Electronics Policy (PSI-2019)

- Incentives for electronics manufacturing include:
  - Up to **100% subsidy on Fixed Capital Investment (FCI)** in select areas
  - 100% SGST reimbursement
  - Stamp duty exemption
  - Electricity duty waiver
- Focus sectors: Semiconductors, ESDM, IoT.

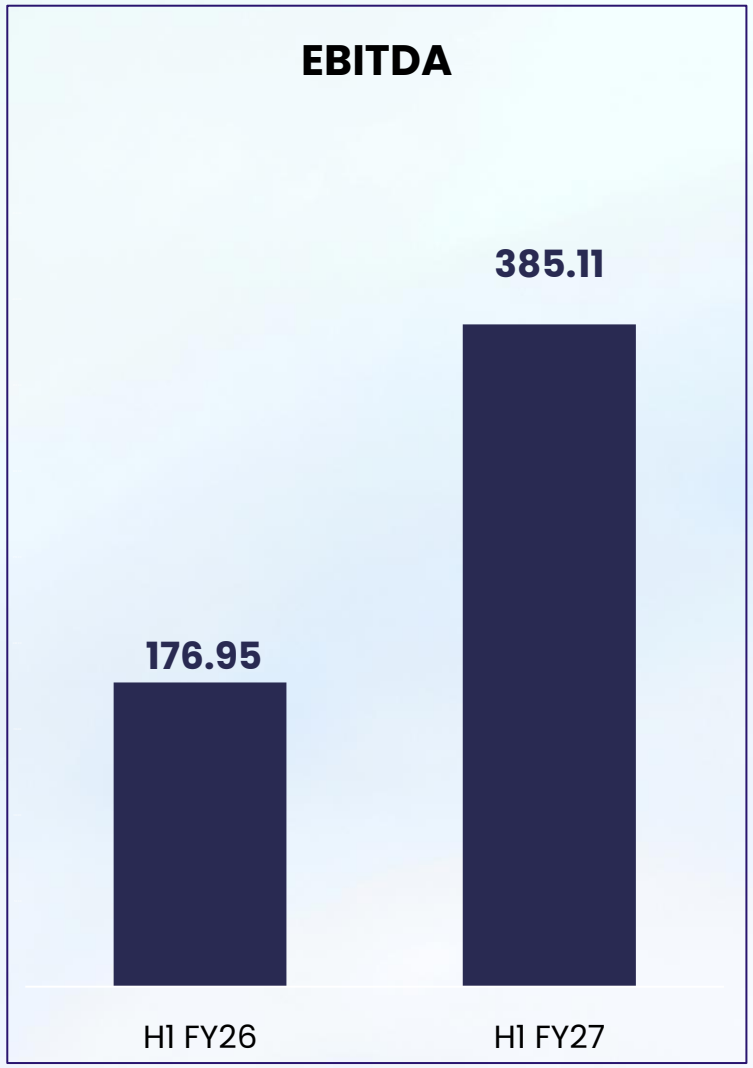

Subsidies and incentive support available in Goa for the electronics & related sectors

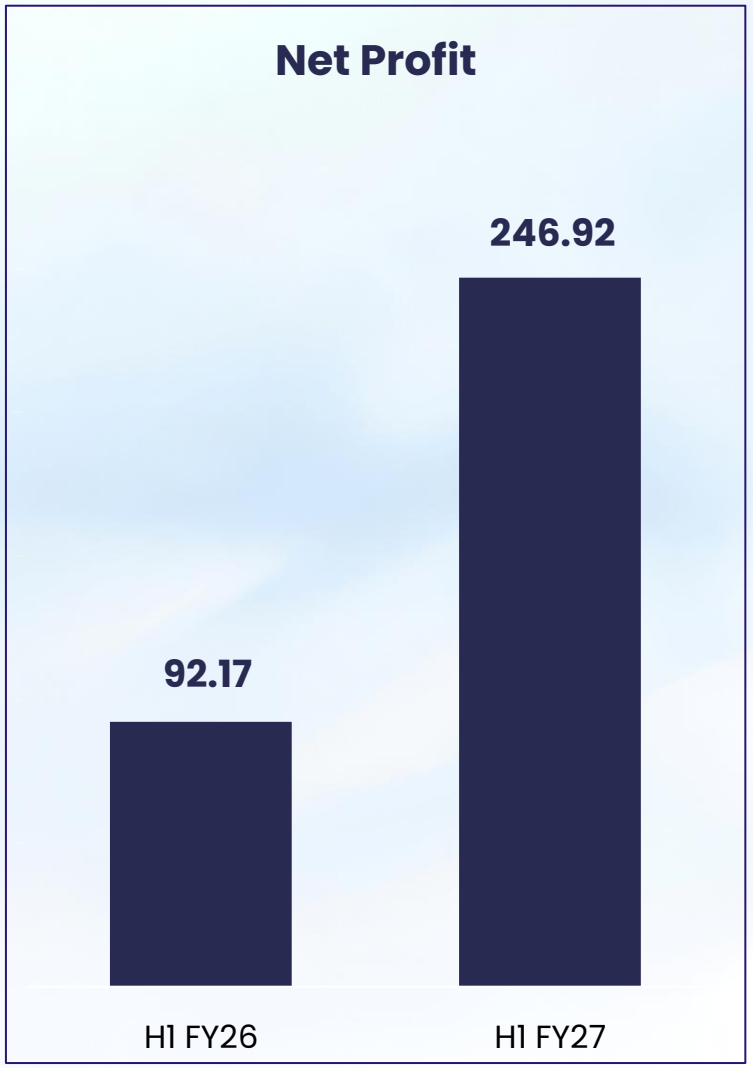

- Eligible units receive a **20% subsidy** on electricity charges (excluding taxes/duties), up to **₹5 lakh** per year
- Industrial plots offered at competitive rates
- Single window cleance system for all Approvals
- Bonus Incentives for **100%** Solar units
- Encourages employment creation FOR women in tech/electronics units.
- **2%** interest rebate on industrial loans for women-promoted units
