INTERNAL RISK FACTORS

1. ***Our manufacturing activity is dependent on the availability and cost of raw materials. Any shortage in supply, fluctuations in raw material prices, restrictions on imports, or an increase in shipment costs may adversely affect our business operations, financial condition, results of operations, and cash flows.***

Our business operations are significantly dependent on the availability and timely procurement of raw materials, including significant imported inputs. During the periods under review, our import purchases amounted to ₹51,035.63 Thousands, ₹55,584.75 Thousands , ₹30,492.43 Thousands and ₹33,129.75 Thousands, representing 92.94 % , 89.68%, 84.41% and 88.38% of our total purchases, for the period ended December 31, 2025 and for fiscal year 2025, 2024 and 2023 respectively. We generally do not enter into long-term supply agreements with our raw material suppliers, which exposes us to risks such as supply disruptions and price volatility. The cost and availability of raw materials are influenced by factors beyond our control, including fluctuations in global demand-supply dynamics, changes in production and transportation costs, currency exchange movements, and regulatory or policy shifts, both domestically and internationally. While we have not faced significant supply disruptions in the past, there can be no assurance that similar stability will prevail in the future.

Imports of these materials and components are also subject to regulatory requirements, which empower authorities to impose measures that may restrict imports from certain jurisdictions. Historically, we have relied on sourcing from countries such as China etc. Although our current imports from these jurisdictions are not subject to restrictions, there can be no assurance that future regulations, including bans, tariffs, or stricter compliance requirements, will not adversely affect our ability to source critical inputs. Additionally, foreign exchange volatility, changes in international commodity prices, imposition of duties, delays in customs clearance or logistics, and adverse geopolitical developments may further disrupt supply chains. In the absence of long-term contracts with overseas suppliers, we remain vulnerable to such uncertainties. If we are unable to secure alternative suppliers or source raw materials domestically on favourable terms and in a timely manner, our production, business operations, financial condition and results of operations may be adversely affected.

2. ***We rely on limited suppliers for our products, loss of these suppliers may have an adverse effect on our business, results of operations and financial conditions.***

We are reliant on a limited number of suppliers for purchase of raw materials. In Fiscal Year 2025 our top 10 customers contributed over 97% of total purchases, with the top 1 Supplier constitutes over 89% of total Purchases. This would be specify that this top Suppliers contribute to substantial portion of purchases for raw materials.
The detailed contribution from our top 1, 3, 5, and 10 suppliers for the last three financial years is as follows:

 # Our Company is unable to disclose the names of these suppliers due to non-receipt of consent letters.

While there have been no such instances in the past, there can be no assurance that there will not be such instances in the future. We may be unable to source our raw materials from alternative suppliers on similar commercial terms or within a reasonable timeframe. This may adversely impact our production and eventually our business, results of operations, financial conditions and cash flows.

3. ***We source our majority of the raw materials from international market i.e. China. Any adverse developments affecting our procurement in this region could have an adverse impact on our revenue and results of operations***

Our Company sources a substantial portion of its raw materials from international markets, with significant imports from China, based on considerations such as quality, pricing, inventory requirements, and credit terms. This sourcing strategy enables us to leverage geographical advantages, ensuring consistent quality and timely delivery. For the period ended December 31, 2025 and financial years ended March 31, 2025, 2024, and 2023, imported raw materials constituted 92.94%, 89.68%, 84.41%, and 88.38% of our total purchases, respectively. For further details on our imports, please refer to the section titled "Restated Financial Information of the Company" beginning on page 214 of this Prospectus.

Such geographical concentration of our business in the said region heightens our exposure to adverse developments related to competition, trade war, imposition of tariff on imports, as well as economic and demographic changes in these regions, which may adversely affect our business prospects, financial conditions and results of operations. Factors such as competition, regulatory regimes, business practices and customs, industry needs, transportation, high prices in other markets where we may procure our products may differ from those in such region, and our experience in this region may not be applicable to other markets. Our inability to procure into areas outside such markets may adversely affect our business prospects, financial conditions and results of operations.

4. ***The company is dependent on certain customers and the loss of any of these customers or cancellation by customers or a delay or reduction in their orders could have a material adverse effect on our business, results of operations and financial condition.***

We specialize in the design, development, integration, assembly, and manufacturing of digital imaging solutions. Our offerings are categorized into two primary segments namely products and market-specific solutions. While our customer base may vary yearly, a substantial portion of our revenue is derived from our top 10 customers. Consequently, our business performance and financial health in any given fiscal year are closely linked to the contributions of these key client.

The table set forth below provides top 10 Customers, for the period ended December 31, 2025 and year ended March 31, 2025, March 31, 2024, and March 31, 2023:

#Our Company is unable to disclose the names of these customers due to non receipt of consent letter.

We cannot assure the continued business of our key customers nor can we guarantee that the current level of sales with them will be sustained. The loss of one or more of these customers, or a reduction in the revenue generated from them, could have a material adverse effect on our business, financial condition, operating results, and cash flows. While there have been no such instances in the past, there can be no assurance that there will not be such instances in the future. Also adverse developments such as disputes, disqualification, or a shift in sourcing to competitors offering superior quality or more competitive pricing could significantly impact our revenue and liquidity.

5. ***Our business has experienced employee attrition over the past three financial years, which may impact operational continuity and increase recruitment and training costs. High turnover could also affect the retention of key talent and expertise critical to our growth and performance.***

Our success relies on skilled workforce and inconsistent rise in attrition rate could have potential impact our operational efficiency, productivity, and overall performance. Over the past two financial years we have observed a certain level of employee turnover, which could affect our ability to maintain continuity in operations and expertise within the organization.

Attrition Rate				
Particulars	**For the Period Ended December 31, 2025**	**F.Y 2024-25**	**F.Y 2023-24**	**F.Y2022-23**
No. of Employees at Beginnings	37	28	27	17
No. of Employees at End	45	37	28	27
Average No. of Employees	41	32.5	27.5	22
No. of Left Employees	7	11	3	0
Attrition Rate	17%	34%	11%	0%

In FY 2025, our attrition rate Significantly rise compare to the previous year. While this increase has not had any material impact on our operations so far, sustained high attrition in the future could affect productivity, increase recruitment and training costs, and result in loss of critical expertise, which may adversely impact our business performance.

6. ***Certain portion of our imports and exports are denominated in foreign currencies; we do not hedge our foreign exchange exposure; adverse currency fluctuations may materially impact our profitability and liquidity.***

Based on Restated Financials Statements for period ended December 31, 2025 and financial year ended March 31, 2025, March 31, 2024, and March 31, 2023 our revenue from operations from export is ₹67,905.58/- Thousands , ₹43,132.64/- Thousands , ₹1,183.11/- Thousands and ₹664.63/- Thousands respectively, which is amounting to 48.05% , 30.65%, 1.11% and 0.69% respectively of total revenue from operations and our import purchases is ₹51,035.63/- Thousands , ₹55,584.75/- Thousands , ₹30,492.43/- Thousands and ₹33,129.75/- Thousands respectively, which is amounting to 92.94% , 89.68%, 84.41% and 88.38% respectively of total Purchases .These amounts are translated into Indian Rupees, so any exchange rate fluctuations between the rupee and foreign currencies can significantly affect our financial results. As we do not hedge our foreign currency exposure, our revenue & Expenditure is subject to volatility and any adverse or unexpected shifts in exchange rates could materially impact our

profitability. Moreover, unhedged foreign exchange exposure not only introduces unpredictability in financial performance, but can also erode profit margins, create competitive disadvantages, and impair liquidity.

7. ***Our business is dependent on our manufacturing unit and we are subject to certain related risks; Unplanned slowdowns, unscheduled shutdowns or prolonged disruptions in our manufacturing operations could have an adverse effect on our business, results of operations, cash flows and financial condition.***

Our business is dependent on our ability to manage our manufacturing unit situated at Rabale, Mumbai productivity of our workforce, compliance with regulatory requirements or changes in the policies of the state or local governments of this region or the Government of India, lack of access to assured supply of electrical power and water at reasonable costs or any significant social political or economic disturbances, and those instances which are beyond our control, such as the breakdown and failure of equipment or industrial accidents and severe weather conditions and natural calamities or civil disasters and pandemics.

Beyond these operational risks, our manufacturing unit is also exposed to risks arising from regulatory compliance. We must adhere to directives issued by relevant government authorities, and any changes in governmental regulations could impact our business and facilities. Failure to comply with these regulations could result in the revocation of essential licenses, certifications, and permits, ultimately jeopardizing our ability to continue operating from our current locations. This highlights the importance of maintaining a proactive approach to regulatory changes and ensuring consistent adherence to all applicable laws and guidelines.

Furthermore, disruptions caused by machinery breakdowns at our manufacturing unit could lead to a reduction in production levels, directly impacting our earnings. In the event of prolonged interruptions, we might be compelled to import supplies and products to meet our production demands, which could negatively affect our profitability. Replacing facilities and equipment on a timely and cost effective basis would be a complex and expensive undertaking. Moreover, catastrophic events could destroy our inventory stored at our units and warehouse. Such disruptions could also cause delays in the shipment of raw materials from our suppliers and the delivery of products to our dealers.

While we have not experienced such events in the past, the potential for their occurrence remains a significant concern. Any future event of this nature could result in the temporary or long-term closure of our manufacturing units, severely disrupting our business operations and materially and adversely affecting our business, results of operations, cash flows, and overall financial condition. Therefore, we prioritize risk mitigation strategies and contingency planning to minimize the potential impact of such events and ensure the continuity of our operations.

Further, any such event and our inability to appropriately respond to it may have an adverse impact on our business, results of operations, and financial condition.

9. ***Our Company has reported certain negative cash flows from its operating activity, investing activity and financing activity during the preceding years. Negative cash flows in the future could adversely affect our results of our***

operations and financial condition.

Sustained negative cash flow could impact our growth and business. Our Company had reported certain negative cash flows from our operating activities, investing activities and financing activities in some years during previous period ended December 31 ,2025 and three (3) financial years as per the Restated Financial Statements and the same are summarized as under:

(Amount ₹ 000)

Particulars	Period ended 31-Dec-25	FY ended 31-Mar-25	FY ended 31-Mar-24	FY ended 31-Mar-23
Cash flow from operating activities	-5,644.27	-14,254.03	31,958.43	41,865.89

Net Increase / (Decrease) in cash and cash equivalents	**8,413.10**	**-1,489.27**	**2,234.73**	**-1,251.64**

A company's cash flow is a crucial indicator of its ability to generate funds from operations to cover capital expenditures, pay dividends, repay loans, and make new investments without relying on external financing. Insufficient cash flow could negatively impact our business and financial operations. In our case, the majority of negative cash flows have primarily arisen from investing activities, reflecting our focus on expansion and capacity building.

10. ***We do not own the registered office and factory from which we carry out and will be carrying out our business activities. In case of non-renewal of lease agreements or dispute in relation to use of the said premise/s, our business and results of operations can be adversely affected.***

Our registered office and factory from which we carry out our business activities is being taken by us on lease. In the event of termination/non-renewal of said lease agreements, we may be required to vacate the said premises which may cause disruption in our business and inventory management, corporate affairs and impede our effective operations which could impact on our business operations until we get suitable alternative premises. Our registered office has been taken on rent for a period of 5 years through Lease agreement and factory has been taken on rent for a period of 5 Years through lease and license agreement. For further details, please refer to the section titled "Our Business" beginning on page 127 of this Prospectus.

While there is no such past instances but there can be no assurance that we will, in the future, be able to continue to renew the lease agreement on same or similar terms, or will be able to find alternate locations for the registered office and factory on similar terms favourable to us, or at all. We may also fail to negotiate the renewal of our lease agreement, either on commercially acceptable terms or at all, which could result in increased rental rates for subsequent renewals or searching of new premises, affecting our financial condition and operations. Further, our factory premises are occupied under a lease and licence agreement that is notarised but not registered, which may limit its legal enforceability and expose us to risks of early termination or eviction. In the event that the lease agreement is terminated or they are not renewed on commercially acceptable terms, we may suffer a disruption in our manufacturing operations which could affect our business, financial condition and results of operations.

11. ***There have been certain outstanding litigation involving our Company, Promoters, Directors, Key Managerial Personnel & Senior Managerial Personnel. Any adverse outcome of which may adversely affect our business, reputation and results of operations.***

12. ***We are subject to strict quality requirements and the success and wide acceptability of our products is largely dependent upon our quality controls and standards. Any failure to comply with quality standards may adversely affect our business prospects and financial performance, including cancellation of existing and future orders.***

All our products and manufacturing processes are subject to stringent quality standards and specifications as specified by our customers. Given the nature of our products and the sector in which we operate, we believe that our customers

have high standards for product quality and delivery schedules. Adherence to quality standards is a critical factor as a defect in products manufactured by our Company or failure to comply with the specifications of our customers may, in turn, lead to the manufacture of faulty end-products. This may lead to cancellation of supply orders by our customers. Although there was no such past instances but any such failure on our part to maintain applicable standards and manufacture products according to prescribed quality specifications, may lead to loss of reputation of our Company, cancellation of the order, loss of customers, rejection of the product, which will require us to incur additional cost to replace the rejected product, all or any of which could have adverse effect on our business and financial condition.

For further details, please refer to the section titled ***"Our Business"*** beginning on page 127 of this Prospectus.

13. Our Promoter group companies, M/s Global Business, Sole Proprietorship of Promoter also operate in the same business which are closely related to our own business activities. Any conflict of interest arising between our operations and promoter group entity, such as competition for resources, market share, or customer relationships, could have an adverse impact on our business, financial performance, and growth prospects.

Our Promoter Group entity, M/s Global Business, is engaged in business activities that are closely related to our own. While non-compete agreements have been executed between our Company and the said entity, the possibility of potential conflicts of interest, including competition for customers, market opportunities, or other resources, cannot be entirely ruled out. Although we intend to take appropriate measures to manage such situations in compliance with applicable laws, we cannot assure you that conflicts of interest will not arise in the future, or that our Promoters will not give preference to the interests of the said entity over those of our Company. Any such instance could adversely affect our business, financial condition, results of operations, and growth prospects. However, we have already executed a non-compete agreement with the said entity, surrendered its TAN, and are in the process of closing down its operations, thereby mitigating the potential risks of conflict in the future.

14. *A substantial portion of our revenue is concentrated from the Industrial Automation Industry. A loss of customer from this Industry may affect our revenues and profitability.*

We cater to Market Specific Solutions to various industries such as Health & Medicare, Railways, Industrial Automation and Defence & Aerospace and substantial portion of our revenue concentrated from Industrial Automation Industry in which we offer Industrial Displays to be deployed for applications such as Textile Spinning & Weaving Machines, Automotive manufacturing lines, Computer Numatics Controls (CNC) etc. For more comprehensive information, please refer to the section titled "Our Business" beginning on Page 127 of this Prospectus.

The table set forth depicted revenue contribution from the industries for the period ended December 31st 2025 and Fiscal 2025, Fiscal 2024 and Fiscal 2023.

*% of Revenue from Operations

The loss of any major customer within that segment could adversely affect our revenue and profitability. While we maintain long-standing relationships that support stability, our lack of formal, long-term contracts means that actual sales may vary from forecasted figures. Consequently, a decline in business from Industrial Automation Segment could materially impact our operations, results, financial condition, and cash flow.

15. ***Our commercial success is largely dependent upon our ability to develop and design innovative products suitable for the requirements of our customers. Our inability to effectively utilize and manage our ability to develop and design innovative products would impact our business, revenue and profitability.***

We are engaged in the manufacturing of Design, Develop, Integrate, Assemble & Manufacture display solutions, including TFT-LCD modules, display controllers, touch screens, and a range of display enhancement technologies. Our products are supplied to a diverse set of customers across industries such as industrial applications, medical and healthcare, Railways, and surveillance. Given the varied needs of these industries, we are required to continuously design and develop customized display imaging solutions that meet the specific requirements and end-use applications of our customers.

As part of our growth strategy, we aim to expand our customer base and product portfolio by catering to both domestic and international markets. To achieve this, our Research & Development (R&D) Facility plays a critical role in enhancing our existing offerings and developing innovative display solutions for diverse applications.

If we are unable to effectively manage and integrate our R&D activities, we may not be able to fully meet customer requirements, which could adversely impact our ability to retain existing customers and attract new ones. Additionally, if our R&D Facility fails to keep pace with technological advancements or industry trends, our relevance in the market could decline, and competitors may offer superior solutions. In such circumstances, we may be required to outsource certain functions to third parties, which could increase our costs and negatively affect our pricing competitiveness.

Accordingly, the commercial success of our business depends significantly on our ability to develop innovative, high-quality products with applications across diverse industries, while delivering complete and integrated display solutions. Any inability to innovate, adapt, or expand into new applications and industries could adversely affect our business operations, growth prospects, financial condition, and overall performance.

16. ***Our success depends on the continued services of our Skilled Manpower, Senior Management Personnel & Key Managerial Personnel and any inability to attract or retain such Personnel could adversely affect our business and growth prospects.***

Our success is closely linked to the availability of a skilled workforce, including engineers and designers, and we place strong emphasis on attracting, training, and retaining talent through structured learning programs, leadership development initiatives, and upskilling opportunities. The expertise of our Promoter, Senior Management, and Key Management has been instrumental in driving the growth of our business, and our future success will continue to depend on their continued association. In addition, our ability to execute orders, expand our client base, and sustain growth depends on retaining and motivating highly skilled professionals. As we continue to grow and diversify, we may encounter challenges in recruiting and retaining suitably qualified personnel, particularly in competition with larger companies that are able to offer more attractive compensation and benefits. Although we have not faced any significant challenges in the past with respect to recruitment or retention of key personnel, the loss of any member of our senior management, promoters, or other key personnel, or our inability to manage attrition effectively, could materially and adversely affect our business operations, financial condition, results of operations, and growth prospects

17. ***We are exposed to the risk of delays or non-payment by our clients and other counter parties, which may also result in cash flow mismatches.***

One of the risks involved in relation to our business is the practice of extending credit. We are exposed to counter party credit risk in the usual course of our business dealings with our clients or other counterparties who may delay or fail to make payments or fulfil their other contractual obligations. We have considerable amount of Trade receivables with holding period More than 6 Months which are as follows: -

(Amount in ₹ Thousands)

Trade Receivable Ageing	As on December 31,2025	As on March 31 2025	As on March 31 2024	As on March 31 2023
Less than 6 Months	67,729.61	19,991.63	1,481.54	184.97
6 Months to 1 year	15,478.36	22,011.17	3.52	4.13

Total	**1,05,848.56**	**42,006.31**	**1,489.19**	**189.10**

Of the above outstanding trade receivables include export sale made to a single debtor party in aircraft industry – "Aerohaste LLC FZ" which forms around 29.5% of total sales. The Sales constituting ₹26,161.17/- Thousands were made in September 2024 & ₹1,54,36.08 in the month of March 25 out of which only ₹4,822.16 Thousands is realised and balance of ₹36,775.09 Thousands remain outstanding as on December 31, 2025 and in month of January 2026 further balance of ₹6,666.53 is realised. This is beyond the timeline prescribed under the Foreign Exchange Management Act, 1999. The management is in discussion with debtor party to resolve technical hurdles in collection of receipts and expects to realize the same in current FY.

The creditworthiness of our clients and business partners is influenced by various external and internal factors, including economic volatility, sectoral slowdowns, and their internal financial performance. We cannot assure you of their continued financial viability or our ability to accurately assess or monitor their credit profiles.

Although we have implemented credit risk management measures such as customer evaluations and regular receivables monitoring, these measures may not be fully effective in mitigating default risk. Any significant or persistent delays in collections, defaults, or credit impairments could materially impact our liquidity, disrupt operational execution, and adversely affect our business, financial condition, and results of operations. Although there have been no such past instances Consequently, there can be no assurance that we will be able to recover all or any part of overdue amounts. Any significant non-payment or non-performance by clients, suppliers, or other counterparties could materially impact our cash flows, results of operations, and overall financial condition, potentially affecting our ability to sustain and grow our display manufacturing operations.

18. ***Our revenue is mainly concentrated in few key states, which collectively contribute a substantial portion of our total income. Consequently, any unfavorable economic, regulatory, or operational changes in these key regions could significantly affect our business performance, revenue streams, and overall financial outcomes.***

This concentration of our business in above mentioned states are subjects us to various risks, including but not limited to:

- regional slowdown in manufacturing activities;
- vulnerability to change of policies, laws and regulations or the political and economic environment of the State;
- constraint on our ability to diversify across the state;
- laws regulating the generation, storage, handling, use and transportation of material;

Any such adverse development affecting continuing operations at our manufacturing facilities could result in significant loss due to an inability to meet customer contracts and production schedules, which could materially affect our business reputation within the industry. The occurrence of or our inability to effectively respond to, any such events or effectively manage the competition in the region, could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects. Further, continuous addition of industries in and around our manufacturing facility without commensurate growth of its infrastructural facilities may put pressure on the existing infrastructure therein, which may adversely affect our business.

19. ***We require sizeable amounts of working capital for our continued operation and growth. Our inability to meet our working capital requirements could have a material adverse effect on our business, results of operations and financial condition.***

Our business requires sizeable amount of working capital and major portion of our working capital is utilized towards Inventories, Advances to Suppliers and Trade Receivables. Any delay in processing our payments by our customers may

increase our working capital requirement. Further, if a customer defaults in making payments, it could affect our cash flow thereby decreasing our existing capital reserves and profitability. Our Company's Net working capital requirements on restated basis for the period ended December 31, 2025 is ₹ 1,43,563.19 Thousands and for fiscal year ended on March 31, 2025 ₹ 90,285.85/- Thousands as against that of ₹37,787.56/- Thousands for the fiscal year ended on March 31, 2024.

Our working capital requirements for the fiscal year ended on March 31, 2026, March 31, 2027 and March 31, 2028 are estimated at ₹1,21,746.68/- Thousands, ₹1,52,741.18/- Thousands and ₹1,89,995.63/- Thousands, whereas the balance, if any, would be arranged from our internal accruals /Equity Reserves and debts. Further, one of the objects of this offer include funding of working capital requirements of our Company, which is based on management estimates and certain assumptions. For more information in relation to such management estimates and assumptions, please see "Objects of the Offer " on page 88 of this RHP. Our working capital requirements may be subject to change due to factors beyond our control including force majeure conditions, an increase in defaults by our customers, non-availability of funding from banks or financial institutions. Accordingly, such working capital requirements may not be indicative of the actual requirements of our Company in the future and investors are advised to not place undue reliance on such estimates of future working capital requirements.

To effectively manage our Inventories, Advances, and Trade Receivables, we must be able to accurately evaluate the inventory cycle, and credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the terms and conditions with our customers, it may lead to delay in recoveries which could lead to a slow inflow of liquidity, thereby adversely affecting our business and results of operations. As a result, to satisfy our working capital needs, our company may require to borrow funds (secured and/or unsecured) or by utilizing internal accruals or issue additional equity. Further, the actual amount of our future capital expenditure may differ from estimates as a result of, among other factors, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, economic conditions, technological changes and additional market developments. Further, our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. We have not faced any instances of material losses or adverse impact on our business or results of operations due to the failure of obtaining additional financing in the past three Fiscal years. However, we cannot assure you that we will be able to obtain additional financing on acceptable terms, in a timely manner or at all, to meet our working capital needs

20. Under-utilization of our manufacturing capacities and an inability to effectively utilize our existing manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.

Our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at manufacturing unit as well as on the market demand of the products sold by us. Among others, the capacity utilization also depends upon the availability of raw materials, labor, industry/ market conditions and procurement practice followed by our customers. For the period ended December 31st 2025 and for Fiscals 2025, 2024 and 2023, our overall capacity utilization is detailed below:

The information related to our installed capacity is based on the certificate received from M/s Garg & Associates, Chartered Engineer, vide their certificate dated February 21, 2026. At present, our capacity utilization levels are relatively low, and while we are taking measures to improve the same, any continued underutilization may result in operational inefficiencies and higher per-unit costs. If we are unable to achieve optimal utilization of our installed capacity, it could have a material adverse effect on our business, financial condition, results of operations, and growth prospects.

21. ***We do not have long-term agreements with any of our customers which exposes us to the risk of fluctuating demand and potentially less predictable revenue streams. This lack of stability in customer relationships may have an adverse effect on our business operations. Consequently, it could negatively impact our financial condition and overall results.***

Our Company has had long standing business relationships with various customers, and we have been serving our clients since many years. However, we currently operate without long term contractual commitments from our customers, relying instead on purchase orders. This exposes us to potential fluctuations in demand and less predictable revenue streams. Such instability can disrupt our operations and weaken our financial performance. Although we do not face such instances in past, However the absence of binding agreements increases the risk that customers may reduce or shift business behavior that could materially impact our results of operations, financial condition, and cash flows. Although we emphasis on quality, timely delivery of orders, in the absence of long-term contracts, any change in the orders could adversely affect the business and the profitability of our Company.

22. ***We have previously entered into related party transactions which, although conducted at arm's length and in compliance with applicable laws, may not always be on terms as favourable as those with unrelated parties, and such transactions may continue in the future.***

We have in the past entered into below mentioned related party transactions with our Promoter, Directors and Key Managerial Personnels etc. For further details, please refer to the chapter titled - "Restated Financial Statements" at page 214. While we assert that all our related party transactions have been conducted at arm's length, and we confirm compliance with relevant provisions of the Companies Act and other applicable laws, we cannot guarantee that we might not have secured more favourable terms if these transactions had involved unrelated parties.

Our company has experienced instances where we have delayed filing Income Tax returns, TDS returns GST returns, EPF returns, and ESIC returns, resulting in the imposition of late filing fees and interest on delayed payments. While the current fees and interest incurred have been manageable, continued practices of delay could cumulatively impact our cash flows adversely.

In the past, there have been some instances of delays/ non-filing/ non-compliance with certain statutory authorities with certain provision of statutory regulations applicable to us which is certified pursuant to a Report issued by M/s S J Kumar & Associates, Company Secretaries dated September 24, 2025:

Although the Company exercises reasonable care to ensure the accuracy and completeness of the information contained in the forms filed along with their supporting attachments, there were clerical errors or omissions in the ROC forms filed in the past. While No show cause notice in respect to the above has been received by our Company till date and no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays in relation to its reporting requirements. Therefore, if the authorities impose monetary penalties on us or take certain punitive actions against our Company in relation to the same, our business, financial condition and results of operations could be adversely affected. Additionally, we have reinforced our internal controls to promptly address any procedural shortcomings.

25. The Objects of the Offer for which funds are being raised, are based on our management estimates and any bank or financial institution or any independent agency has not appraised the same. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles "Objects of the Offer".

The fund requirements and proposed deployment, as detailed in the chapter titled "Objects of the Offer" on page 88 of this Prospectus, are based on internal estimates prepared by our management and have not been independently appraised by any bank, financial institution, or third-party agency. These estimates are aligned with our current business strategy; however, there is no assurance that such plans will be executed fully or as anticipated. Given the evolving and competitive nature of our industry, our business strategy and corresponding fund requirements may be subject to periodic revisions. The utilization of the Net Proceeds, as outlined in the "Objects of the Offer" section, lies

solely at the discretion of our Board of Directors and will not be monitored by any external agency. Moreover, the actual implementation timeline and cost structure may differ from the estimates provided, due to various factors, including those beyond our control. Any such deviations could result in delays in executing our business strategy, potentially impacting our projected revenues and profitability. Inaccurate forecasting or ineffective resource management may also lead to an unanticipated shortage or excess of manpower, materials, or equipment, which could adversely affect our operational performance and financial stability.

26. Our operations may be adversely impacted by customs duty dues, penalties, or changes in tariff structures.

Our Company has certain outstanding customs duty dues amounting to ₹4810.73/- Thousand as of February18, 2026 at Sahar Air Cargo, which may expose us to risks relating to customs duty and related regulatory implications. We import raw materials, components, and equipment required for our manufacturing operations, which are subject to customs duties, tariffs, and related regulations. Any delay in settlement of such dues, non-compliance, or disputes with customs authorities may result in the levy of penalties, interest, or litigation. Furthermore, in the event of adverse determinations by customs authorities, we may be required to make additional payments towards duties, penalties, or fines. Such outcomes could have a material adverse effect on our business operations, financial condition, cash flows, and results of operations.

27. Our Promoters and Senior Managerial Personnel play a vital role in our operations, and we rely significantly on their knowledge and experience hence, their continued association is critical to our business. Any loss of their continued association may disrupt our business, impact strategy execution, and adversely affect our financial performance.

We derive significant benefit from the knowledge, experience, and relationships of our Promoters and Senior Managerial Personnel who have been instrumental in the growth of our business and remain closely involved in formulating strategy, direction, and overall management. Our Promoters are also actively engaged in the day-to-day operations of the Company, and our performance is substantially dependent on their continued association. In the event that our Promoters are unable or unwilling to continue in their present roles, we may face challenges in finding suitable replacements, which could adversely impact our operations.

In addition, we depend on the continued services of our key executives and senior management for the smooth functioning and growth of our business. The loss of any such personnel could result in difficulties in locating qualified replacements and may lead to additional costs for recruitment and training. Such disruptions could adversely affect our business operations, execution of strategy, financial condition, and results of operations.

28. We have incurred indebtedness which exposes us to various risks which may have an effect on our business and results of operations.

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on December 31, 2026, our total outstanding indebtedness was ₹81,987.22 Thousands.

Our significant indebtedness in future may result in substantial amount of debt service obligations which could lead to:

1. increasing our vulnerability to general adverse economic, industry and competitive conditions;
2. limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
3. affecting our credit rating;
4. limiting our ability to borrow more money both now and in the future; and
5. increasing our interest expenditure and adversely affecting our profitability.

If the loans are recalled on a shorter notice, we may be required to arrange for funds to fulfil the necessary requirements. The occurrence of these events may have an effect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see “Statement of Financial Indebtedness” on page 231 of this Prospectus.

29. ***If our Company is unable to protect its intellectual property, or if our Company infringes on the intellectual property rights of others, our business may be adversely affected.***

Our company currently uses a logo HIGHNESS that is registered under the Trademarks Act, 1999. Despite this protection, we remain exposed to the risk of counterfeiting or imitation, which could harm our brand reputation, customer trust, reduce sales, and increase administrative and legal costs. Although there has been no such past instances but there is no assurance that third parties will not infringe upon or misuse our intellectual property, potentially impacting our business prospects, reputation, and goodwill. While we take measures to safeguard our intellectual property, these efforts may not always be sufficient, which could result in a loss of business value and negatively affect our operations.

Further, the legal framework governing intellectual property rights in India is evolving and subject to uncertainty, which may pose significant risks to our business. Despite the safeguards we implement, there remains a possibility that our intellectual property could be copied, misused, or otherwise infringed upon, potentially impacting our business performance, cash flows, financial condition, and overall results of operations. Inadequate protection of our intellectual property could also lead to a loss of competitive advantage and erosion of business value. For further details, please refer to the chapters titled "*Our Business*" and "*Government and other Statutory Approvals*" on pages 127 and 240, respectively of this Prospectus.

30. ***Failure to obtain, Renew or Maintain Statutory and Regulatory Approvals that may be required in the ordinary course of business could adversely Affect our Business and Operations.***

We are subject to various laws and regulations governing our business and operations and are required to obtain, maintain, and renew licenses, approvals, registrations, and permits at both state and central levels. These approvals may carry conditions, some of which could be onerous. Increasingly stringent regulatory requirements may impose substantial compliance obligations, higher costs, or potential liabilities. While we strive to comply with all applicable laws, such compliance may restrict our business flexibility, increase costs, or expose us to penalties in case of lapses.

Further, we cannot assure you that the approvals, licenses, registrations, and permits granted to us will not be suspended, revoked, or withdrawn due to non-compliance, alleged non-compliance, or regulatory action. Any such event may materially and adversely affect our business, financial condition, results of operations, and cash flows. For details, see
"Government and Other Approvals" on page 240 of this Prospectus.

31. ***After the conversion of the Company into public limited, we are required to update the name of our company in some of the statutory approvals, certificates, licenses and registrations due to the change of Status of our Company.***

Our Company was originally incorporated as Highness Micro Electronics Private Limited under the provisions of the Companies Act, 1956 vide certificate of incorporation dated September 06, 2007. Further, pursuant to a resolution passed by our Board of Directors in its meeting held on February 8, 2008, the name of our company was changed to Highness Microelectronics Private Limited. Subsequently, the Company was converted into a Public Limited Company pursuant to Shareholders Resolution passed at the Extra Ordinary General Meeting of the Company held on August 31, 2024. The name of our Company was changed from "Highness Microelectronics Private Limited" to "Highness Microelectronics Limited" vide a fresh Certificate of Incorporation dated November 11, 2024, having CIN U72900MH2007PLC173854 issued by the Registrar of Companies, Central Processing Centre. Our Company is in the process of change in name of the approvals, certificates, licenses and registrations due to the change of Status of our Company. We cannot ensure that we will be able to update all said documents in a timely manner.

For further details, see "Government and Other Approvals" beginning on page 240 of this Prospectus.

32. ***Our Company will not receive any proceeds from the Offer for Sale. Our Promoter Selling Shareholders will receive the proceeds from the Offer for Sale.***

The Offer comprises of a Fresh Issue and an Offer for Sale by the Promoter Selling Shareholders. Our Promoter Selling Shareholders shall be entitled to receive the entire proceeds from the Offer for Sale (net of their portion of the Offer-related expenses), and we will not receive any proceeds from the Offer for Sale. For further information, see "The Offer" and "Objects of the Offer" on pages 56 and 88, respectively.

33. *Reliance has been placed on declarations and affidavits furnished by certain of our promoters and Directors for details of their profiles included in this Prospectus.*

Our Company does not have any documentary evidence for the work Experience of our Promoter and Non-executive Director. As our Promoter Mr. Manjul Kumar Kejriwal is unable to trace the documents evidencing his Experience with respect to the earlier periods, the textile business (M/s. Banwarilal Satyanarain) and the hospitality business (M/s. Hotel Satkar). Due to lack of documents and relevant Information we have relied on Affidavit Signed by Mr. Manjul Kumar Kejriwal. For details in relation to the experience of our key management personnel, see "Our Management" on page 180 of this Prospectus.

34. *Our business is dependent on the efficient functioning of our manufacturing facilities, and any obsolescence, damage, theft, breakdown, or failure to properly repair and maintain our machinery may adversely affect our operations, cash flows, financial condition, and results of operations."*

We have a factory located in Rabale, Mumbai. Our business is dependent on the efficient management and operation of this facility, which is subject to various operational risks, including those beyond our control, such as equipment breakdowns, industrial accidents, and severe weather conditions or natural disasters. While we have not faced any such significant instance in the past, any malfunction, breakdown, or failure of our machinery and equipment used in the manufacturing of display solutions, including TFT-LCD modules, display controllers, and touchscreens, may lead to substantial repair or replacement costs and delays in production. If we are unable to repair or replace defective machinery in a timely manner, our operations may be suspended until new machinery or components are procured. Planned shutdowns for maintenance, statutory inspections, cleaning, testing, capacity expansion, or equipment upgrades may also temporarily impact production. Obsolescence, damage, theft, or breakdowns of machinery may increase our capital expenditure requirements, affect depreciation calculations, and necessitate revisions in the estimated useful life of our plant and equipment. Certain specialized machinery or components may be expensive or difficult to replace, and we may experience price increases due to supply shortages, inflation, transportation challenges, or unavailability. Additionally, the costs arising from such events may not be fully covered by our insurance policies. Any of these factors could materially and adversely affect our business operations, cash flows, financial condition, and results of operations.

35. *The average cost of acquisition of Equity Shares held by our Promoters and selling Shareholder's may be less than the Offer Price.*

Our Promoters and Selling Shareholders' average cost of acquisition of Equity Shares in our Company could be lower than the Price as may be decided by the Company in consultation with the BRLM. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters and selling shareholder in our Company, please refer chapter title "Capital Structure" beginning on page 75 of this Prospectus.

36. Uninterrupted availability of power and fuel is critical for the smooth functioning of our manufacturing operations and overall business activities.

Our manufacturing operations for display solutions, including TFT-LCD modules, display controllers, and touchscreens, require a significant and uninterrupted power supply. Energy costs constitute a considerable portion of our overall production expenses. At present, we source our electricity requirements primarily from state electricity boards and have also installed a genset facility as a backup to mitigate the impact of power disruptions. While we have not experienced

any significant disruptions in electricity supply in the past, any material increase in electricity tariffs or prolonged supply interruptions in the future could increase our production costs and adversely impact profitability.

Although the genset facility provides backup power, it may not be adequate to fully support uninterrupted production in the event of sustained outages. Such situations, if they arise, could lead to partial or complete shutdown of our facilities, delays in meeting customer orders, higher restart costs, and potential inefficiencies. Accordingly, prolonged disruptions or sustained increases in power costs could materially and adversely affect our operations, financial condition, and growth prospects

37. ***Our Promoters and members of the Promoter Group have significant control over the Company and have the ability to direct our business and affairs, their interests may conflict with interests as a shareholder.***

As of the date of this Prospectus, our Promoters and members of the Promoter Group hold a major portion of 99.90 % of pre-offer share capital of our Company. Following the completion of this Offer, our Promoters and Promoter Group will continue to hold substantial shareholding in our Company. Consequently, they will be in a position to have considerable influence over the Company, including the composition of our Board of Directors and decisions requiring ordinary or special shareholder approval. This concentration of ownership may limit the ability of other shareholders to influence the outcome of such matters. Our Promoters and Promoter Group may also initiate or prevent actions relating to our business that could be inconsistent with the interests of Company or those of minority shareholders. We cannot assure you that the rights exercised by our Promoters and Promoter Group as shareholders will always align with the best interests of our Company.

38. ***Our quality assurance and quality control processes may not always detect all defects, non-conformities, or deficiencies in workmanship, which could adversely impact the performance of our display solutions and, in turn, affect our reputation, financial condition, growth prospects, and results of operations.***

We have established a dedicated quality control department comprising engineers and technical personnel with significant experience in display technologies, and we continue to strengthen this function. Our quality control and assurance protocols are designed to monitor every stage of the production process, from component sourcing to final assembly and testing of display modules. In addition, reliability testing and performance checks are conducted prior to dispatching products to customers. While we have not encountered any significant quality-related issues in the past, there can be no assurance that our quality control systems will identify all defects, workmanship errors, or non-conformities with customer specifications. Any lapses in detection could result in the delivery of defective or substandard products, which may lead to product returns, warranty claims, or reputational damage. Such outcomes could adversely impact our business, prospects, financial condition, and results of operations.

39. ***Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject, and this may have a material effect on our business and financial condition.***

We believe that we maintain requisite insurance coverage as per industry standards. For details, see “Our Business” on page 127. However, we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable or in the event of severe damage to our business. Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or are not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or coinsurance requirements), could have an effect on our business, results of operations, financial condition and cash

flows.

40. Our Promoter and Directors may have interests in our company other than reimbursement of expenses incurred and normal remuneration or benefits.

Our Promoter and Directors can be deemed to be interested to the extent of the Equity Shares held by them, or their relatives, dividend entitlement in our Company, and benefits deriving from the directorship in our Company. Our Promoter are interested in the transactions entered into our Company and our Promoter Group. For further information, please refer to the chapters/section titled "Our Business", "Our Promoter & Promoter Group" and Related Party Transaction Notes under "Financial Statements" Chapter beginning on pages 127, 204 and 214 respectively.

41. *Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval. Any delay or denial of approval may restrict business plans; dissenting shareholders are entitled to an exit opportunity which could adversely affect our financial condition.*

As per Section 27 of the Companies Act, 2013, any change in the proposed utilization of the Net Proceeds, as outlined in this Prospectus, requires prior approval from our shareholders by way of a special resolution. If a situation arises where a variation in the stated use of Net Proceeds becomes necessary, there is no certainty that we will be able to secure such shareholder approval promptly, or at all. Any delay or failure in obtaining this approval could negatively impact our business operations. Moreover, under the SEBI (ICDR) Regulations, our Promoters or controlling shareholders must provide an exit opportunity to shareholders who dissent to the proposed change in the object of the Offer. If a significant number of shareholders choose to exercise this exit option, it could adversely affect our financial condition and business performance. Consequently, even if a variation in the utilization of any unutilized Net Proceeds is deemed beneficial to our Company, we may be restricted from implementing it. For further details of the proposed Objects of the Offer, refer chapter titled "Objects of the Offer" on Page no. 88 of this Prospectus.

42. We may not be able to detect or prevent all instances of fraud or misconduct by our employees, which could materially and adversely affect our business, reputation, results of operations, financial condition, and cash flows.

In employee-centric industry such as ours, our workforce plays a critical role in ensuring quality, innovation, and timely delivery of products. However, this reliance also brings the risk that undetected fraud, misconduct, or unethical behavior by employees could adversely affect our operations, reputation, and financial stability. Despite implementing preventive systems, instances such as theft of inventory , misrepresentation of information, or other unethical conduct could result in financial losses, production disruptions, and a decline in stakeholder confidence.

Although we don't have any such past instances but if such events are not detected or addressed promptly, the consequences may extend to operational inefficiencies, weaker cash flows, and deterioration of our financial condition. To mitigate these risks within our workforce-driven model, we focus on implementing robust internal controls such as segregation of duties, authorization protocols, access restrictions, and regular reconciliations, supported by periodic audits and fraud-prevention training.

43. No monitoring agency has been appointed as the Offer size is below ₹ 5,00,000.00 Thousands. Utilization of proceeds will be overseen by the Statutory Auditors and Audit Committee, which may be less effective than independent monitoring.

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only if the offer size, excluding the size of offer for sale by selling shareholders, exceeds ₹ *5,00,000.00 Thousands* . Hence, we have not appointed any monitoring agency to monitor the utilization of Offer proceeds. However, the company will submit a statutory auditor certificate while filing the quarterly financial results, till the offer proceeds are fully utilized and also audit committee of our Board will monitor the utilization of Offer proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Offer proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public. While we believe this mechanism is adequate, it may not be as effective as

monitoring by an independent agency, and any delay, deviation or mismanagement in the utilization of Offer proceeds could adversely affect our business, financial condition and results of operations.

44. Our future fund requirements, in the form of further issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the Shareholders depending upon the terms on which they are eventually raised.

We may need to raise additional capital periodically based on the requirements of our business. Any future issuance of Equity Shares or convertible securities could result in the dilution of existing shareholders' holdings, and the terms of such issuance may not be advantageous to the current shareholders. If we raise funds through loans, debt, or preference shares, it could significantly increase our fixed interest or dividend obligations, thereby reducing our cash flows and potentially having a negative impact on our business, operational performance, and financial health.

45. Both the Company and the Selling Shareholders are required to bear Offer-related expenses in proportion to their respective components of the Offer, which may increase the financial burden on each party. Any escalation in Offer expenses may adversely impact the Company's liquidity as well as the Selling Shareholders' net proceeds.

Both the Company and the Selling Shareholders will be required to bear the expenses related to the Offer in proportion to the equity shares being issued and sold. As a result, each party may incur a significant financial burden irrespective of the final size or success of the Offer. Any increase in Offer-related costs such as regulatory fees, professional charges, marketing expenses, or compliance costs will result in a proportionate increase in the expenses borne by the Company and the Selling Shareholders. This may negatively affect the Company's liquidity, reduce funds otherwise available for business operations or expansion, and lower the Selling Shareholders' net realisation from their sale of shares.

Furthermore, the total Offer expenses may fluctuate due to factors beyond the control of the Company, such as regulatory requirements, market conditions, or additional clarifications sought by authorities. In such circumstances, both the Company and the Selling Shareholders may be required to bear higher expenses than initially estimated. This arrangement may adversely impact the Company's short-term financial position and the Selling Shareholders' expected proceeds. Investors should consider that the requirement to proportionately share Offer-related expenses may have a negative effect on both parties and could result in reduced financial flexibility for the Company.

46. We have not commissioned an industry report for the disclosures made in the chapter titled 'Industry Overview' and made disclosures on the basis of publicly available data and such data has not been independently verified by us. There can be no assurance that such publicly available data is either complete or accurate.

We have not commissioned an industry report for the information provided in the "Industry Overview" section, starting on page 118, and the disclosures are based on publicly available data that has not been independently verified by us. The information in this section is derived from relevant industry data available online, for which we have not obtained the necessary consents. We have not independently verified this data, and we cannot guarantee that the assumptions made are accurate or that they will not change. As a result, our market position may differ from what is presented in this Prospectus. Additionally, the industry data cited in this document or the sources from which it has been gathered should not be interpreted as recommendations to invest in our Company. Investors should, therefore, consider the industry-related information in this Prospectus with this context in mind.

47. The Equity Shares may not be listed on BSE Limited, as listing approval is subject to BSE's discretion and various regulatory conditions. Any refusal or delay in listing may result in illiquidity of the investment and potential financial loss to investors.

There is a significant risk that the Equity Shares proposed to be issued may not be listed or admitted for trading on BSE Limited ("BSE"). The grant of listing and trading approval is entirely subject to the discretion of BSE and dependent on the Company, its Promoters, and the Book Running Lead Manager meeting various eligibility, regulatory, procedural, and documentation requirements. Any deficiency, delay, objection, or adverse observation by BSE may result in postponement or refusal of listing approval. There can be no assurance that BSE will approve the listing within the expected timelines, or at all. In the event BSE does not grant such approval, investors may not be able to trade their shares on the proposed stock exchange, leading to illiquidity of their investment and potential financial losses.

Failure to obtain listing approval may also materially impair the success of the Issue and adversely affect the Company's reputation, credibility, and future fund-raising ability. Non-listing may further result in reputational damage, operational setbacks, delays in executing business strategies, and loss of investor confidence. The Company, its Promoters, and the Book Running Lead Manager do not undertake or guarantee that the Equity Shares will be listed on BSE. Investors should carefully consider this risk, as refusal or delay in listing may lead to adverse consequences without any recourse or remedy available to them.

48. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

In the past, we have not made dividend payments to the shareholders of our Company. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors. For further details, please refer "Dividend Policy" on page 213 of this Prospectus..

49. The Equity Shares have never been publicly traded, and, after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Offer Price, or at all.

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation do not guarantee that a market for Equity Shares will develop, or if developed, the liquidity of such market for Equity Shares. The Offer Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

The Offer Price of our Equity Shares has been determined by book-built method. This price is based on numerous factors (For further information, please refer chapter titled "Basis for Offer Price" beginning on page 108 of this Prospectus) and may not be indicative of the market price of our Equity Shares after the Offer. The market price of our Equity Shares could be subject to significant fluctuations after the Offer and may decline below the Offer Price.

We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and Domestic and international economic, legal and regulatory factors unrelated to our performance.

EXTERNAL RISK FACTORS

50. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax ("**GST**") regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the amendment of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST. The Government has enacted the GAAR which have come into effect from April 1, 2017.

The Government of India has announced the union budget for Fiscal 2024 and the Ministry of Finance has notified the Finance Act, 2023 ("**Finance Act**"). There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act would have a material adverse effect on our business, financial condition and results of operations. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has, in a decision clarified the components of basic wages, which need to be considered by companies while making provident fund payments. Our Company has not made relevant provisions for the same, as on date. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations. Further, the Personal Data Protection Bill, 2019 ("**PDP Bill**") was introduced to propose a legal framework governing the processing of personal data. However, the PDP Bill has been withdrawn on August 3, 2022 and the Ministry of Electronics and Information Technology, Government of India ("**MoEIT**") has submitted a new Digital Personal Data Protection Bill, 2022 before the Parliament.

We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

51. ***The impact of natural or man-made disasters has the potential to negatively influence our financial performance, cash flows, and overall financial health. Instances of hostilities, terrorist attacks, civil unrest, and other acts of violence have the potential to adversely affect financial markets and pose risks to our business.***

The potential occurrence of natural disasters such as cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic diseases, and man-made disasters, including acts of terrorism and military actions, poses a risk to our results of operations, cash flows, and financial condition. Acts of terrorism and violence may have adverse effects on the Indian securities markets. Additionally, any deterioration in international relations, particularly between India and its neighbouring countries, may lead to investor concerns about regional stability, potentially impacting the price of Equity Shares. India has experienced local civil disturbances in recent years, and the possibility of future civil unrest or other adverse social, economic, or political events in India could negatively affect our business. Such incidents may also contribute to a perception that investing in Indian companies entails a higher level of risk, potentially impacting our business and the market price of Equity Shares.

52. ***Investing in our Equity Shares involves inherent risks associated with investments in Indian companies***

As an Indian-incorporated entity with assets and employees based in India, our business, financial condition, and the market value of our Equity Shares are subject to various general risks linked to the Indian economic landscape. Changes in interest rates within India, policies enacted by the Government of India – encompassing taxation policies and industry related measures – as well as broader political, social, and economic developments impacting the country can significantly influence our operations.

53. ***Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries may have negative impact on the financial markets, financial condition, our business and the price of our Equity Shares***.

Any major conflicts involving India or instances of violence, including civil unrest or similar events beyond our control, could significantly affect India's economy and our business operations. Events such as terrorist attacks in India, as well as incidents in countries like the US, Indonesia, Madrid, and London, along with other acts of violence, may have adverse impacts on the Indian stock markets where our Equity Shares are traded. Such events have the potential to diminish business confidence and disrupt international trade, potentially harming our company's business performance and profitability. Additionally, these occurrences could have a substantial adverse effect on the market for securities of Indian companies, including our Equity Shares.

54. ***Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.***

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular

55. ***Our business and results of operations could be adversely affected by disruptions in global economic and geopolitical conditions.***

As substantially all our operations are dependent on our customers who have their head offices or parent companies situated outside India, our financial performance and growth are necessarily dependent on economic conditions prevalent globally. The global economy may be materially and adversely affected by political instability or regional conflicts; a general rise in interest rates; inflation; exchange rate fluctuations; changes in tax, trade, and monetary policies; occurrence of natural or manmade disasters; downgrade in debt rating; and adverse economic conditions occurring elsewhere in the world, such as a slowdown in economic growth in China, the repercussions of the United Kingdom exit from the European Union and other matters. While the Indian economy has grown significantly in recent years, it has experienced economic slowdowns in the past due to global economic and geopolitical conditions. The Indian economy could be adversely impacted by inflationary pressures, currency depreciation, and the poor performance of its large agricultural and manufacturing sectors, trade deficits, and recent initiatives by the Indian government and other factors. Unfavourable changes in the above factors or in other business and economic conditions affecting our customers could result in a corresponding decline in our business**.**

DETAILS OF USE OF NET OFFER PROCEEDS

1. Funding the capital expenditure requirements of our Company

Our Company is engaged in the Design, Development, Integration, Assembly and Manufacture of Digital-Imaging Solutions. Our Company operates in two main categories namely 'Off the Shelf Products' and 'Market Specific Solutions / Project'. For more information with respect to business and products of the Company, kindly refer to "Our Business" Chapter on page 127 of the Prospectus.

Further, with the existing setup at our factory located at R-364, TTC Industrial Area, Rabale, Mumbai-400701, we possess in-house capabilities to carry out processes such as Open-Cell Bonding. Open-Cell Bonding is a assembly process in display manufacturing, involving the precise integration of the ITO (Indium Tin Oxide) glass panel with the T-Con (Timing Controller) board and the Backlight Unit (BLU). In this process, the display panel (without a protective outer glass or casing, hence 'open cell') is carefully aligned and bonded to the BLU to ensure proper light diffusion, electrical connectivity, and overall display performance.

With the proposed IPO proceeds, we plan to establish a new COG (Chip on Glass) and FOG (Film on Glass) assembly line at our factory located at R-364, TTC Industrial Area, Rabale, Mumbai-400701. With this proposed machinery setup, we aims to manufacture Open-Cells In-House.

This process involves two critical operations:

- **Chip on Glass (COG):** In this process, semiconductor driver Integrated Circuit (ICs) are directly mounted and electrically connected onto the ITO (Indium Tin Oxide) glass panel. This enables the control of individual pixels in the display.

- **Film on Glass (FOG):** Here, a flexible printed circuit (FPC) or film is attached to the glass panel, providing electrical connectivity and supporting signals to the display.

Together, these processes convert plain ITO (Indium Tin Oxide) glass into fully functional open- cell display modules. With this initiative, we will be able to manufacture Open-Cell modules in-house that are currently imported. This step forms a key part of our backward integration strategy and marks a significant move toward the localization of display module manufacturing.

We propose to utilize ₹ 50,000 Thousands out of Net Proceeds towards setting up a COG (Chip on Glass) and FOG (Film on Glass) assembly line at existing facility located at located at R-364, TTC Industrial Area, Rabale, Mumbai-400701. For further details of properties kindly refer the heading Immovable Property table on "Our Business" chapter beginning from page 127 of this Prospectus.

Further, for setting up a COG (Chip on Glass) and FOG (Film on Glass) assembly line requires an extremely controlled and contaminant-free environment to ensure product quality and reliability. At present, the company operates a clean room that supports various bonding processes such as Open-Glass Backlight Bonding, Tape Bonding, Optical Bonding, and others. This facility is equipped with laminar flow tables that help minimize dust particles during operations. However, the proposed new machinery will require production in Class 10,000 and Class 1,000 clean rooms, which maintain stringent control over airborne particles, temperature, and humidity. A Class 10,000 clean room permits no more than 10,000 particles per cubic foot of air, while a Class 1,000 clean room restricts this further to just 1,000 particles per cubic foot. These specialized environments are critical to preventing dust, static, and other contaminants from compromising the delicate bonding of ITO glass, driver ICs, and backlight units during Open-Cell assembly.

Our Company proposes to acquire machineries at an estimated cost of ₹4,848.96/- Thousands. The detailed breakup of estimated cost towards purchase of proposed clean room work which are proposed to be funded from the net offer proceeds is set forth below:

Rationale for raising additional working capital:

In our business consistent investments in raw materials, inventory, and day-to-day operations are essential for

maintaining seamless production and supply chain efficiency. While we have historically met these requirements through internal accruals and external borrowings, our planned expansion shall led to increased working capital needs.

We propose to utilize ₹52,675.18/- Thousands out of Net Proceeds towards setting up a COG (Chip on Glass) and FOG (Film on Glass) assembly line at existing facility located at located at R-364, TTC Industrial Area, Rabale, Mumbai-400701.

With the part portion of IPO Proceeds, we plan to establish a new COG (Chip on Glass) and FOG (Film on Glass) assembly line at our factory located at R-364, TTC Industrial Area, Rabale, Mumbai-400701. This investment will enable us to manufacture Open-Cell modules in-house, which are currently imported, and represents a major step forward in our backward integration strategy. By localizing the production of key display module components, we will reduce dependence on imports, mitigate supply chain risks, and achieve greater cost efficiencies.

The additional working capital will be utilized for sourcing raw materials, maintaining adequate inventory levels, preparing the new assembly line for operations, making supplier advances, and managing receivables—especially as we are offering extended credit terms to strengthen existing customer relationships and onboarding new customers and to get more business from them.

Furthermore, as we scale operations and transition into backward integration, our cash conversion cycles are expected to lengthen. This necessitates a stronger liquidity position to ensure uninterrupted business continuity. Deploying IPO proceeds towards working capital will support a smooth transition to the new facility, accelerate the commercialization of newly developed products, and reinforce our supply chain resilience. Ultimately, this approach will not only sustain our current growth trajectory but also strengthen the foundation for long-term value creation.

Justification:

Our Company's estimated working capital requirements on a restated basis are based on the following key assumptions:

Inventory	Inventories of our company include raw materials, WIP and finished goods for Digital-Imaging Solutions which includes AD Board (Analog-to-Digital Board), Open Cell, PCAP (Projected Capacitive) Touch Screen, Resistive Touch Screen, TFT LCD, Adapter, TFT LCD Backlight, TFT LCD With PCAP (Projected Capacitive) Touch Embedded Board, and LVDS (Low-Voltage Differential Signaling) Cable etc. Our inventory holding period was 52 days, 130 days, 147 days and 139 days for FY 2022-23, FY 2023-24, FY 2024-25 and as at December 31, 2025 respectively. Looking ahead, with the perspective to increase business operations, our company projects inventory holding days to be around 140 days, 115 days and 105 days in fiscal year ended 2026, 2027 and 2028 respectively. To avoid any supply chain disruptions, we plan to maintain these inventory levels. This strategic approach ensures we can meet project demands efficiently while optimizing our working capital.
Trade Receivables	Trade Receivables are amount owed to Company by customers following Sales of Products and Supply of Services. Our historical trend of trade receivables holding period was 1 days, 5 days, 109 days and 206 days for FY 2022-23, FY 2023-24, FY 2024-25 and as at December 31, 2025. Looking ahead, we expect the trade receivables holding period to be around 102 days for the fiscal years 2026 and 85 days for fiscal year 2027 and 78 days for fiscal year 2028.

	As part of our expansion strategy, we are investing in additional machinery to establish a new assembly line and commence backward integration. This initiative is expected to generate higher revenues from operations by enabling in-house manufacturing of critical components. To support this growth and attract a wider customer base, we intend to offer extended credit periods to customers, thereby providing them with greater flexibility in payments. This strategic approach is aimed at boosting sales volumes, deepening customer relationships, and facilitating market expansion, while ensuring that the Company maintains financial discipline and long-term stability.
Trade Payables	Our trade payables holding period in FY 2022-23, FY 2023-24, FY 2024-25 and December 31, 2025 were 31 days, 34 days, 42 days and 63 days respectively, the average trade payable days in past three fiscal years was 36 days. We are considering to maintain holding period of trade payables to 35 days for F.Y. 2025-26, F.Y. 2026-27 and F.Y. 2027-28 respectively. **Reasons for Reducing the creditor Days:** **Competitive Edge:** By reducing the trade payables period, we position ourselves more favorably in the market, enhancing our reputation as a reliable business partner. **Priority and Reliability:** Shortening our payment cycles strengthens relationships with key suppliers, ensuring we receive priority treatment and reliable supplies, especially as we expand our product lines and markets. **Better Negotiation:** The Company anticipates better purchase pricing & terms due to higher discounts on account of improved vendor payment terms, continuous supply from vendors, reduced holding period by ensuring timely and committed payments. This will eventually add to the bottom line. **Vendor Requirements:** Some of our key suppliers require shorter payment terms for continued partnership. Meeting these terms is essential for an uninterrupted supply of critical materials and fostering long-term relationships with these vital partners.
Short Term Loan and Advances, Other Current Assets	Short term loans and advances mainly consist of Advances to employees. While Other Current Assets majorly belongs to Advances to Suppliers, Balance with government authorities, Advance for Expenses and Prepaid Expenses. These loans and advances and other current assets are towards accelerating the business and integral part of our business. We expect the growth in these assets to be in line with the expected growth in business.
Other Current Liabilities, Short Term Provisions	Other Current Liabilities mainly include Advance from Customer, Statutory Dues Payables and other payables. Short Terms Provisions are mainly includes Provision for Income Tax and Provision for Employees Benefits. Other current liabilities and Short Term Provisions are estimated based on previous year outstanding amount and for expected Business requirement of company.

GLOBAL OUTLOOK

Global growth is projected to remain resilient at 3.3 percent in 2026 and at 3.2 percent in 2027: rates similar to the estimated 3.3 percent outturn in 2025. The forecast marks a small upward revision for 2026 and no change for 2027 compared with that in the October 2025 World Economic Outlook (WEO). This steady performance on the surface results from the balancing of divergent forces. Headwinds from shifting trade policies are offset by tailwinds from surging investment related to technology, including artificial intelligence (AI), more so in North America and Asia than in other regions, as well as fiscal and monetary support, broadly accommodative financial conditions, and adaptability of the private sector. Global headline inflation is expected to decline from an estimated 4.1 percent in 2025 to 3.8 percent in 2026 and further to 3.4 percent in 2027. The inflation projections are also broadly unchanged from those in October and envisage inflation returning to target more gradually in the United States than in other large economies.

Since the October 2025 WEO, trade tensions have continued to abate but remain subject to occasional flare-ups. A dispute between China and the United States involving controls on exports of semiconductors and rare earth minerals was quickly followed by a truce that reduced bilateral tariffs until November 2026 and introduced a pause on export controls. US authorities also removed, for all countries, tariffs on some agricultural products, offsetting the higher tariffs

on certain sectors that were previously announced and are now in effect. This leaves the overall US effective tariff rate at about the same level as assumed in the October 2025 WEO (Figure 1), but the changes for specific countries can be meaningful. The US Supreme Court is widely expected to deliver a decision in early 2026 on the president's use of the International Emergency Economic Powers Act. Newly signed bilateral trade and other agreements, often including significant investment and purchase commitments with limited public disclosure, also add a layer of complexity. Policy uncertainty, although lower than it was in October, is still much higher than it was in January 2025.

Global financial conditions are still accommodative, despite some volatility and rising sovereign yields (Box 1). Stock prices of major technology companies pulled further apart from prices of other stocks (Figure 2). Financial conditions, overall, changed little or tightened only moderately. The US dollar recovered slightly as the momentum of investors' hedging of exposures slowed but came briefly under renewed pressure following the initiation of an investigation into the Federal Reserve chair.

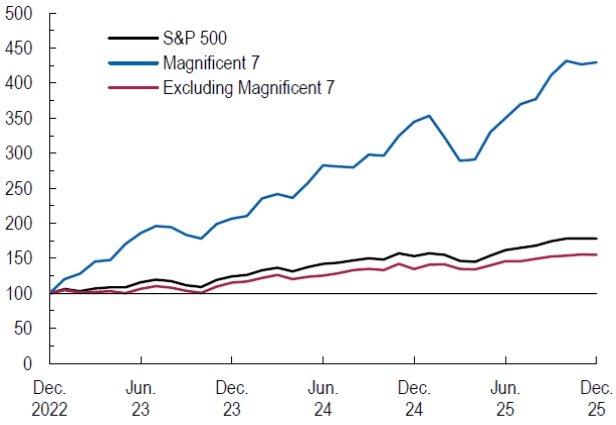
Note: "Effective tariff rate" is a weighted average of announced statutory rates using pre-tariff (hence, pre-substitution) import weights. Calculations include only tariffs that are in effect at the time noted on the *x*-axis; measures that are not specified and implemented are not included. WEO = *World Economic Outlook*.

Figure 2. Tech Companies Diverge Further from the Rest
(Index, Dec. 2022 = 100)



Sources: Bloomberg Finance L.P.; and IMF staff calculations.
Note: The Magnificent 7 is an equal-dollar-weighted equity benchmark composed of Apple, Microsoft, Amazon, Alphabet, Tesla, Nvidia, and Meta. Although it includes several of the most influential leaders in artificial intelligence (AI), it does not cover all major AI-focused companies. For example, Oracle and Palantir are not part of the group.

Against this backdrop of stabilizing trade tensions and supportive financial conditions, the global economy has continued to be remarkably resilient, adapting to the shifting landscape and with momentum varying across countries and sectors. In aggregate, global growth in the third quarter of 2025 decelerated to 2.4 percent on an annualized basis, above expectations but with upside surprises in some countries offset by downside surprises in others. A boost from aerospace exports lifted growth to 2.2 percent in France, whereas falling exports continued to weigh on activity in Germany, leaving real GDP unchanged from the second to the third quarters. Japan's economy contracted by 2.3 percent, with private and government consumption offsetting some of the contraction driven by private residential investment and exports. China's growth decelerated to 2.4 percent (as per staff estimates), with weak domestic demand, especially in the housing sector, partly offset by resilient exports. Growth in the United States accelerated to 4.3 percent, with a pickup in technology investment and expenditure estimated to add about 0.3 percentage point to average annualized GDP growth in the first three quarters of 2025, offsetting the drag from the federal government shutdown in the last quarter of the year. There are also signs that technology-related investment contributed to activity in Spain and the United Kingdom, though not at the same scale as in the United States.

Policies Can Foster Stability and Sustainable Growth

Rebuilding fiscal capacity and maintaining public debt sustainability are crucial, especially as pressing spending needs persist. At a minimum, commitment to credible medium-term fiscal consolidation is required. Efforts to replenish fiscal buffers should be anchored in realistic assumptions, including those regarding long-term spending pressures, and sound debt management practices while seeking to strike the right balance in regard to growth-friendly adjustment. Countries should aim to bolster fiscal revenues, rationalize expenditures, and strengthen expenditure efficiency by, among other things, crowding in private investment.

Responses to negative demand shocks should be drawn up without deviating from medium-term fiscal sustainability objectives. They should leverage automatic stabilizers, applied symmetrically over the full business cycle to support macroeconomic smoothing in both downturns and upturns. Any discretionary fiscal interventions must be strictly targeted toward those firms and households most affected by adverse shocks and include explicit sunset provisions that make the actions temporary. Offsetting such measures through nonpriority spending reductions elsewhere or new revenue sources is paramount, particularly where there is limited fiscal space. Broad based subsidies and other industrial policy measures can be both costly and disruptive. Even when appropriate to use, they should be handled with care. To avoid inefficient resource allocation, particularly given increasingly tighter fiscal constraints, industrial policies must be precisely targeted to address specific market failures and clearly defined externalities and be subject to periodic cost-benefit analyses.

To stabilize expectations and encourage investment in a broader set of sectors, countries should make reducing policy-driven uncertainty a priority. They should establish and adhere to transparent and coherent trade policy frameworks, aided by pragmatic cooperation. This involves advancing multilateral efforts concerning key global commons, updating international regulations where feasible, and exploring regional or plurilateral solutions where appropriate.

Bilateral dialogues should not adversely impact third-party nations. Efforts to ease trade frictions and lower barriers to trade and investment should be aligned with those aiming to address excessive external imbalances resulting from domestic policy decisions (see the 2025 *External Sector Report*). Achieving lasting resolutions requires reaching a common understanding of underlying distortions and taking action to address them.

Beyond the navigation of near-term trade-offs and challenges, elevating medium-term growth prospects remains the most effective strategy for resolving macroeconomic dilemmas. Structural reforms targeting labour markets, education, regulatory frameworks, and competition will drive productivity, potential output, and job creation. Moreover, harnessing technological progress— through digital transformation, AI adoption, and investment in renewables and energy-efficient systems, among other possibilities—can accelerate productivity gains and expand growth potential. These efforts should not jeopardize but rather be aligned with a rebalancing of the global economy, which is a crucial element of sustainability. Weaving in growth-enhancing measures together with efforts to fortify the EU single market, to chart a credible fiscal consolidation plan to put US public debt on a decisively downward path, and to advance

China's reforms to strengthen the social protection system and scale back unwarranted industrial policy support would help diversify the sources of global growth.

INDIAN OUTLOOK

A rise in domestic investments has been one of the most significant contributors to the growth story of India. Domestic investments in India are divided into two parts - public investments and private investments. Private investments are further divided into two parts, which are household investments and corporate investments. Private domestic investments depend on a slew of factors - macroeconomic stability, high household savings, productivity, access to credit, resolution of non-performing assets, clearing up of balance sheets, etc.

Domestic investments and foreign investments in India work hand-in-hand to help the growth of the country. Growth in emerging economies like India results mainly from innovations that allow domestic sectors to catch up with innovative technology. The process of catching up with the leader in any sector requires the cooperation of a foreign investor who is familiar with the leading technology and a domestic entrepreneur/investor who is familiar with the local conditions.

The Indian private investing space has also been showcasing signs of maturity over the past few years. The market has revealed that new investments accounted for about 50% of VC transactions. The VC-to-PE pipeline has also become robust and consistent.

Market Activity

India remains the fastest-growing major economy in the world, with real Gross Domestic Product (GDP) growing by 7.8% in Q1 FY26, the highest in the last five quarters. In comparison, growth was 7.4% in Q4 FY25 and 6.5% in Q1 FY25. According to the Ministry of Statistics and Programme Implementation, nominal GDP rose by 8.8% during the same period. Nominal GDP increased significantly from Rs. 1,06,57,000 crore (US$ 1.24 trillion) in FY15 to Rs. 3,31,03,000 crore (US$ 3.88 trillion) in FY25.

Global and domestic forecasts are similarly upbeat, the Reserve Bank of India (RBI) has raised India's GDP growth forecast for FY26 to 6.8%, up from its earlier estimate of 6.5%. Similarly, the Organisation for Economic Cooperation and Development (OECD) increased its 2025 growth projection for India by 40 basis points to 6.7%, compared to 6.3% projected in June 2025.

In August 2025, Domestic Institutional Investors (DIIs) recorded their 25th straight month of net inflows, investing Rs. 94,829 crore (US$ 10.8 billion), the highest in 10 months. In the first five months of FY26, DIIs invested Rs. 3.24 lakh crore (US$ 37.6 billion), which makes up ~53% of the total investment made in FY25. According to BSE data, as of October 13, 2025, the number of registered investors on Bombay Stock Exchange (BSE) reached 22,98,09,534, marking a 18.39% YoY and 1.27% MoM increase.

In September 2025, India set a three-decade record for IPO activity, with 25 companies raising Rs. 13,302 crore (nearly 20% of total proceeds), marking the highest monthly tally since January 1997. In H1 FY26, 65 firms are set to raise up to Rs. 69,532.91 crore (US$ 8.2 billion), 35% higher than the Rs. 51,390 crore raised by 40 companies in the same period of FY25, reflecting a strong rebound in primary market activity after the brief slowdown earlier in the year.

In August 2025, India recorded 84 Private Equity (PE) - Venture Capital (VC) investments worth Rs. 10,827 crore

(US$ 1.24 billion). In the six months ending June 2025 (H1 2025), the country witnessed 519 PE/VC deals amounting to Rs. 1,28,523 crore (US$ 14.93 billion), reflecting continued investor confidence in India's growth potential.

Road Ahead

India's domestic investment outlook for FY26 and beyond remains strong, supported by sustained economic expansion, steady policy momentum, and improving investor confidence. The government's continued push through initiatives such as 'Make in India', 'Aatmanirbhar Bharat', and the Production-Linked Incentive (PLI) schemes is expected to drive capacity creation and strengthen industrial output.

Emerging sectors such as semiconductors, renewable energy, electric mobility, and advanced manufacturing are likely to see significant investments over the next few years, reflecting India's growing importance in global supply chains. The country's stable macroeconomic fundamentals and rising private sector participation are also expected to keep investment activity buoyant in FY26.

At the same time, structural reforms in taxation, logistics, and labour codes, along with improvements in ease of doing business and financial inclusion, will continue to create a supportive environment for domestic investors. The increasing presence of Domestic Institutional Investors (DIIs) and a rising base of retail investors are helping deepen India's capital markets and strengthen its investment ecosystem. With GDP growth projected at around 6.8% for FY26 and strong momentum across core sectors, domestic investments will remain a critical driver in achieving India's long-term goal of becoming a US$ 5 trillion economy by 2027.

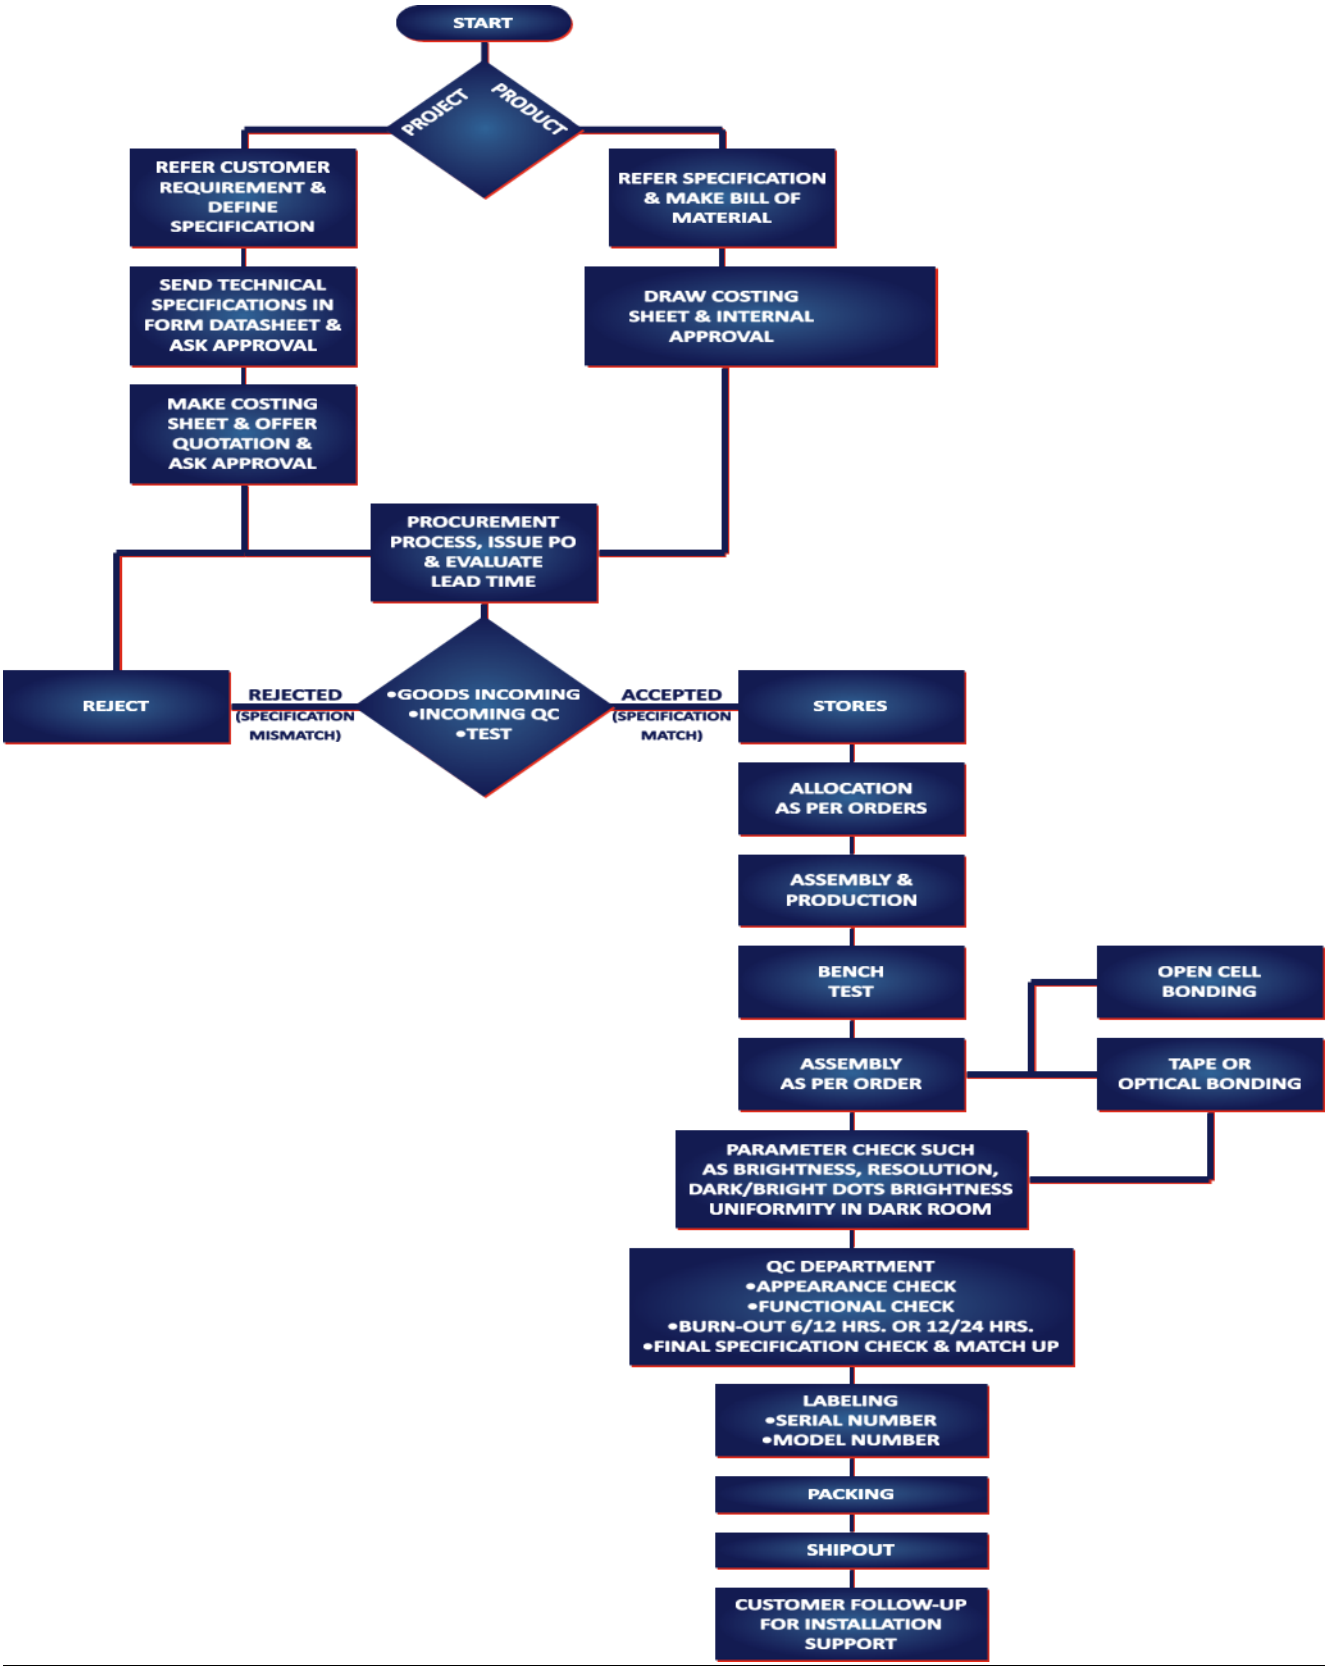
OUR MANUFACTURING WORKFLOW CHART

The process starts by identifying whether we are going to undertake an order for an Off-The-Shelf product or a Project (that carries customized specifications).

In case of Off-The-Shelf product, the specifications are pre-defined and the Bill-Of-Material (BOM) is decided in advance. After receiving an order for such product, the procurement team will initiate the process for buying the raw-materials.

For a Project, the Product Design team prepares specifications, which are shared with the customer for approval. After the customer confirms, the final specifications and BOM are prepared. Based on this, the Procurement & Sourcing team prepares a costing sheet, and a price offer is sent to the customer.

The detailed manufacturing workflow chart depicted below:-



After receiving an order, the procurement team initiate the process for buuying the raw-material.

Step-1: <u>Sourcing & Procurement of Components</u>

- **Supplier Identification:** Identify suppliers for critical components such as LCD panel, PCBs (Printed Circuit Boards) , enclosures, connectors, etc.
- **Component Testing:** Ensure all incoming components meet quality and medical/industrial standards e.g., Electro-magnetic Interference (EMI) /Radio Frequency Interference (RFI) shielding, ISO certifications etc.
- **Inventory Management:** Place components in the store room and manage inventory based on production demand.

Step-2: <u>PCB Controller Board Assembly & LCD Panel Preparation</u>

- Apply solder paste, place components, and reflow soldering.
- **Inspect and test the PCBs:** Perform electrical tests on the assembled PCB
- **Inventory Management:** Place components in the store room and manage inventory based on production demand.
- **Component Inspection:** Inspect LCD glass, backlight units.
- **Assembly of LCD Components:** Attach LCD Glass and backlight modules to the LCD panel, and Integrate the driver Circuit and circuit connections.
- **LCD Testing:** Test for dead pixels, colour accuracy, and uniformity.
- **Touchscreen Integration (if applicable):** Bond the touch panel to the LCD screen.

Step-3: <u>Chassis and Enclosure Preparation</u>

- **Metal Fabrication:** Manufacture the outer casing (typically from aluminium, stainless steel, Mild Steel).
- **Surface Treatment:** Apply anti-corrosive coatings, EMI/RFI shielding, and antimicrobial finishes (for medical monitors).
- **Mounting Point Preparation**: Create and test mounting points for PCBs, LCD panels, and connectors.

Step-4: <u>Display Assembly</u>

- **PCB Mounting:** Place the assembled PCB into the monitor enclosure.
- **LCD Panel Mounting:** Attach the LCD panel to the front side of the enclosure.
- **Cable and Connector Assembly:** Connect internal cables (Low Voltage Differential Signaling (LVDS), power cables) from PCB to the LCD panel.
- **Back Cover Installation:** Close and fasten the back cover of the monitor.
- **Sealant Application (Medical Monitors):** Apply any necessary seals or gaskets for water or dust resistance (e.g., IP65-rated monitors).

Step-5: <u>Functional Testing and Calibration</u>

- **Power-on Testing:** Ensure the monitor powers on correctly.
- **Image Calibration:** Adjust brightness, contrast, colour accuracy, and other display parameters.
- **Touchscreen Calibration (if applicable):** Test and calibrate the touch interface.
- **EMI/EMC Testing:** Perform electromagnetic interference testing (especially for medical and industrial monitors, as per International Electrotechnical Commission (IEC) 60601 and other relevant standards).
- **Safety Testing:** Conduct electrical safety tests (leakage current, grounding) for medical-grade monitors.

Step-6: <u>Software and Firmware Installation</u>

- **Firmware Flashing:** Install the firmware for the display controller.
- **Software Integration:** Load any custom software needed for client applications (e.g., medical diagnostics or industrial automation)

Step-7: <u>Final Assembly & QA (Quality Assurance)</u>

- **Visual Inspection:** Inspect for cosmetic defects.
- **Final Electrical Tests:** Perform another round of electrical and functional testing.
- **Environmental Testing (Optional):** Subject the product to stress tests for temperature, humidity, and vibration.
- **Burn-in Testing:** Run the monitor for an extended period under normal operating conditions to ensure long-term reliability.

Step-8: Packaging

- **Cleaning:** Clean the monitors and remove any dust or fingerprints.
- **Protective Packaging:** Package the product in anti-static and shock-absorbent materials.
- **Labelling:** Apply serial numbers, barcodes, and certification labels.
- **Boxing:** Place monitors into cartons or crates for shipment.

Step-9: Dispatch

- **Final Inspection Before Shipping:** Ensure the product is in proper condition.
- **Shipping Preparation:** Arrange the monitors for dispatch to the client, adhering to shipping regulations and client requirements.
- **Document Preparation:** Create shipping documentation, invoices, and warranty cards

OUR BUSINESS SEGMENTS / MARKET VERTICALS

1. INDUSTRIAL AUTOMATION

Wherever there is Industrial Automation, there is a need for Human Machine Interface (HMI). Our company manufacturers Displays that suits such application. These specifications include displays that are suit industrial environmental conditions and displays that interface with industrial controllers. Our industrial displays are designed to match and perform in industrial environment such as places with high-humidity, high temperatures. We have

successfully deployed our displays for applications such as Textile Spinning & Weaving Machines, Automotive manufacturing lines, Computer Numatics Controls (CNC) etc through OEM Customers.

In this segment we also made Industrial grade Monitors & Displays suitable for ATMs, KIOSKs, Point of Sale terminals, Ticket Vending machines. These displays are meant for use in outdoor climatic conditions that subject our displays to direct sunlight, heat & dust and a need for vandal-proofing. While we offer some customization options, which we drive from standard Commercial of the shelf (COTS) displays by way of value addition that increases the displays' native characteristics. Our design capabilities are focused on achieving average brightness levels, rather than optimizing visibility in sunlight or integrating specialized enclosures for outdoor use.

2. MEDICAL & HEALTHCARE

Our company is focused on offering indigenized Medical-Grade monitors through OEM Customers at competitive prices. With in-house design capabilities and hands-on experience, we have developed a range of monitors specifically

designed for surgical applications such as Gastroscopy, Endoscopy, and Laparoscopy.

We manufacture medical grade Surgical Monitors, Surgical Monitors with Built-in Recorder locally means bringing cost effective and affordable imaging solutions in hands of small and medium sized hospitals that are far too many compared to big and enterprise ones. Furthermore, locally manufactured monitors also offer an advanced after sales service support so that the end-use can depend on these monitors when making critical surgeries.

Additionally, with the rise in new hospital projects focusing on Modular Operating Theatres (MOT), there is a need for medically certified displays that can be integrated seamlessly into MOT panels. Our all-in-one displays offer this integration and provide cross-platform connectivity with Picture Archiving and Communication System (PACS), Hospital Information System (HIS), and surgical cameras, allowing procedures to be viewed, recorded and broadcast for study and consultation at the same time.

In addition to ISO-13485 certification our Company also secured an Medical Device Rules license from the Central Drugs Standard Control Organization (CDSCO) under the Ministry of Family Welfare and Health of the Government of India, allowing us to manufacture these medical monitors with official government certification.

EXPORT OBLIGATION

As on the date of this Prospectus, our Company does not engage in the export of its products and does not have any existing or pending export obligations.

COMPETITION

Our industry is largely dependent on technological advancements as well as cost-effectivity. While technological advancements can be achieved with continuous R&D in order to stay in the race, the cost-effectivity comes with increased investment in smart manufacturing processes which can reduce dependencies and increase yield.

China has been leading the Display Industry in recent times. A lot of Indian industry has been buying and importing in finished and semi-finished form from China however challenges such as inferior quality product are prevalent when buying from China on account of low-cost pricing. However, an in-house design & manufacturing process backed with strong in-house R&D can help localise this entire product line as well as supply chain from allied industries that can serve as support for Ecosystem for Display Manufacturing.

Considering the above, our company has established a differentiated and sustainable operating model. The Company manufactures TFT-LCD modules by integrating Open-Cell Glass with Backlight Units through a precisely controlled, in-house calibration and bonding process. This end-to-end integration is a key determinant of display performance, reliability, and operational longevity attributes that are critical for mission critical applications, including Railways, Surveillance systems, Defence applications, and medical equipment.

Unlike several industry participants that predominantly import fully finished and semi-finished display panels and limit their operations to mechanical assembly, our company emphasizes meaningful value addition through its in-house design, manufacturing, and research and development capabilities.

In India, there are only a few players currently engaged in this business, whereas in overseas markets such as China, Taiwan, and the USA, the players are much larger in scale. Some of the key names in the sector include Samtel Avionics Limited (India), M/s R.R. Enterprises (India), WINSTAR Display Co. Ltd. (Taiwan),Orient Display (USA) Corp. (USA). In this context, our Company integrated operating model enables stringent control over product design specifications, quality parameters, and performance standards, while also facilitating product localization and the development of a robust domestic supply-chain ecosystem.

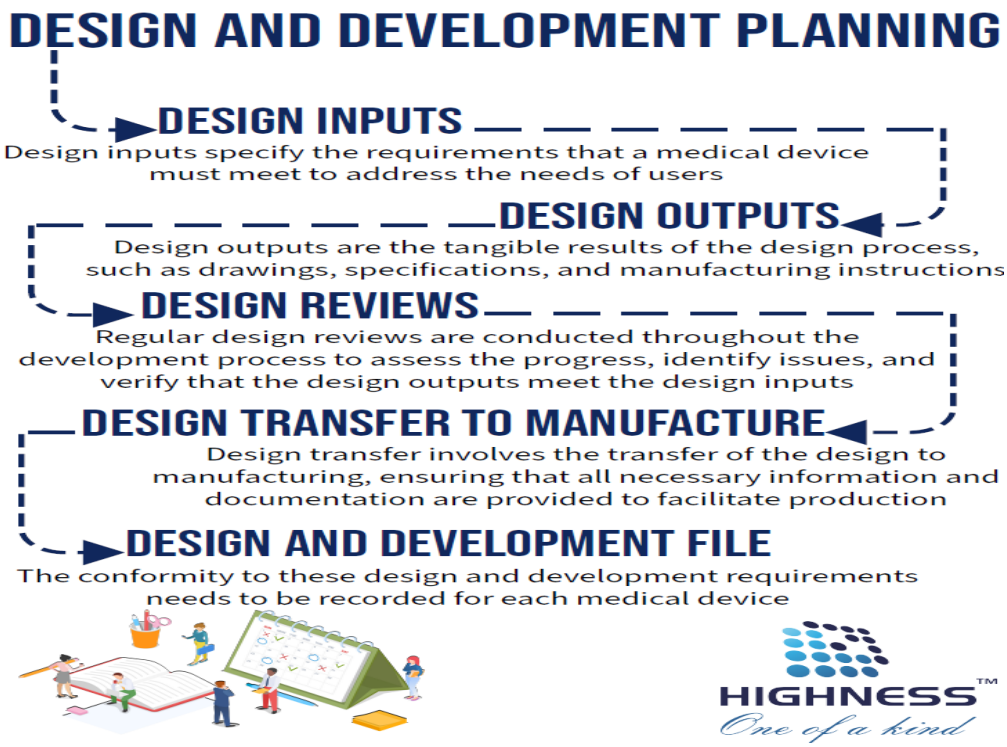
Our company has in-house design facilities equipped with experienced designers, enabling us to prepare both 2D (Two-Dimensional) and 3D (Three-Dimensional) /CAD(Computer- aided design). For each product, we create a standard 2D drawing that includes the product's dimensions and mechanical parameters, as well as a 3D/CAD model showcasing its multi-dimensional features. These detailed drawings are essential for our customers when integrating our displays into their products or their respective projects.
All mechanical enclosures are also designed in-house using our advanced 3D/CAD design capabilities before moving to the fabrication process. This ensures high precision and quality control at every step of production.



d. <u>Clean Room</u>

We have a dedicated clean room designed for various bonding procedures, including Open-Glass Backlight bonding, Tape Bonding, Optical Bonding, and more. The clean room is equipped with a Laminar flow table, which effectively minimizes dust particles during the bonding processes.

To maintain a controlled environment, all personnel must wear cleanroom aprons and pass through air showers before entering, ensuring that dust particles are fully restricted. Additionally, the clean room is outfitted with compressed air and vacuum suction lines to support the bonding machines' requirements. This setup guarantees the highest standards of cleanliness and precision during critical bonding operations.

e. Black Room

Our company is equipped with a Black-room where engineers perform critical testing LCD Displays in zero-ambient light conditions. This ensures accurate evaluation of brightness uniformity and detection of any potential light leakage. Each display undergoes a thorough 9-point brightness test (It is a standard method used to measure and evaluate the luminance (brightness) uniformity of a TFT-LCD display) to ensure it meets the high standards required before being certified for use in Monitors.

f. Test & Quality Check

Each and every product has its own respective tests, and every single unit goes through its respective test criteria. We have Test & Quality Check facility with trained personnel who ensures every single unit shipped is tested before it stamped QC passed. As a part additional test process, burn-out test is completed on every unit which means the product is kept in working condition for 4 to 12 hours as required by the specification of each product.

A dedicated team of security personnel works in shifts, available 24/7, to safeguard the facility and maintain security during both working and non-working hours.

We also prioritize the safety and well-being of our team by implementing advanced Fire Safety Control Systems throughout our facilities. To further enhance preparedness, we conduct regular Fire Safety Drills, ensuring that all employees are equipped with the knowledge and skills to effectively respond in emergency situations. This proactive approach demonstrates our commitment to maintaining a safe and secure work environment for everyone.

AVAILABILITY OF RAW MATERIAL AND COMPONENTS

The major raw materials required for manufacturing our products are categorized in electromechanical categories under bought out parts and manufactured sub-assemblies. Our raw materials include-

Raw Material	Image
AD Board (Analog-to-Digital Board) The AD Board (Analog-to-Digital Board) is a critical controller board used in display solutions. Its main function is to process and convert incoming video signals (such as High-Definition Multimedia Interface (HDMI), Video Graphics Array (VGA), or Display Port) into formats compatible with TFT LCD panels. Different versions of AD Boards are used depending on the display size, resolution, and input interface requirements. In an industrial HMI or monitor, the AD Board essentially acts as the "bridge" between external devices (PCs, cameras, industrial controllers) and the LCD screen, enabling smooth and accurate image rendering.	Adapter The Adapter is primarily used as a power supply unit for industrial displays, Human Machines Interfaces (HMIs), and embedded systems. It converts the incoming AC mains power (110–240V) into regulated DC output (such as 5V, 12V, or 24V) required by the electronic boards, LCD panels, backlights, and touch controllers.	
Embedded Board The Embedded Board is a compact computing module integrated into advanced display systems. Unlike a standard AD Board, the Embedded Board can host an operating system (such as Android or Linux) and run applications directly on the hardware. This eliminates the need for an external PC, making it suitable for smart HMIs, kiosks, and industrial automation systems where space and reliability are critical. Embedded Boards manage not only video processing but also touch interface integration, network communication, and application-level logic, offering an all-in-one solution for intelligent display applications.	
	LVDS (Low-Voltage Differential Signaling) Cable The **LVDS Cable** is a specialized interface cable used to connect the AD Board or Embedded Board with the TFT LCD panel.	Open Cell An Open Cell refers to the raw, unfinished LCD panel that does not yet have a backlight, driver electronics, or enclosure. It typically consists of two sheets of ITO (Indium Tin Oxide) coated glass with liquid crystal material sandwiched between them.	PCAP (Projected Capacitive) **Touch Screen** A PCAP (Projected Capacitive) Touch Screen is an advanced touch interface technology widely used in modern industrial and Defence displays. It works by embedding a transparent grid of conductive material (usually ITO) beneath the cover glass. When a user touches the screen, the system detects the change in capacitance at the contact point, allowing for precise and highly responsive input. PCAP touch screens are integrated with TFT LCDs to deliver robust industrial HMIs for automation systems, factory equipment interfaces, medical devices, and kiosks, ensuring intuitive user interaction while maintaining durability under 24/7 operating conditions.	
	Resistive Touch Screen A Resistive Touch Screen is one of the most traditional and reliable touch technologies, widely used in industrial and rugged environments. It is constructed with two flexible layers separated by a thin gap. When pressure is applied to the surface (using a finger, stylus, or even a gloved hand), the two layers make contact, and the system registers the exact touch point. Resistive touch screens are integrated into industrial monitors and HMIs where precision, ruggedness, and input flexibility are required. They are commonly used in industrial automation panels, medical equipment, kiosks in high-dust environments, and outdoor terminals where operators often wear gloves or use stylus pens.	 TFT LCD A TFT LCD is a flat-panel display technology that uses thin-film transistors to control each pixel on the screen, providing high resolution, sharp image quality, and fast response times. Each pixel is activated individually through its transistor, which ensures precise control of brightness and colour, resulting in clear visuals and stable performance.	
TFT LCD Backlight A TFT LCD Backlight is the light source placed behind or at the edge of a TFT LCD panel, allowing the display to be visible since liquid crystals themselves do not emit light. The most common technology used today is LED based backlighting, which provides uniform brightness, energy efficiency, and long lifespan compared to older CCFL-based backlights.	
TFT LCD Enclosure A TFT LCD Enclosure refers to the protective housing or mechanical frame designed to encase a TFT LCD module, along with its supporting electronics such as the AD board, backlight, and touch screen. The enclosure not only holds all components securely in place but also provides mechanical strength, environmental protection, and mounting options for integration into industrial systems.	TFT LCD With PCAP (Projected Capacitive) **Touch** A TFT LCD with PCAP (Projected Capacitive) Touch combines a TFT LCD display panel with an integrated PCAP touch screen to create a complete interactive display solution. The TFT LCD provides high-resolution visuals, sharp color reproduction, and stable performance, while the PCAP touch layer enables multi-touch functionality with smooth, accurate, and fast response.

This legislation primarily governs the incorporation, funding, operation, and restructuring of companies as distinct legal entities. The Act outlines the eligibility criteria, procedural requirements, and execution processes for various corporate actions. It defines the roles and responsibilities of company management in relation to shareholders and emphasizes key principles such as transparency, corporate governance, and the protection of shareholders and creditors. Ultimately, the Companies Act seeks to strike a balance between two often competing objectives: ensuring managerial autonomy and safeguarding investor interests.

INDUSTRY RELATED LAWS

Information Technology Act, 2000 and Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011

Highness operates in technology-intensive sectors including medical imaging, surveillance, broadcasting, and transportation, where computer-controlled systems and embedded electronics are integral. Many of its products—such as medical monitors, rail navigation displays, and ruggedized defense systems—rely on real-time data transfer and embedded software that may process or display sensitive personal information, especially in healthcare and surveillance contexts. Under the Information Technology Act, 2000, such activities are legally recognized and regulated. The Act provides legal recognition to digital records, signatures, and electronic communication, and mandates the implementation of "reasonable security practices" when dealing with sensitive personal data or information (SPDI). The IT Rules, 2011 further specify obligations such as data protection policies, appointment of grievance officers, and encryption protocols. This Act also extends jurisdiction to offenses committed outside India if the affected computer system is located in India, making it critical for Highness to secure its devices and systems across geographies.

Digital Personal Data Protection Act, 2023

The Digital Personal Data Protection Act, 2023 applies to entities that process personal data—defined broadly to include any data from which an individual can be identified. Highness's products, particularly those used in healthcare (surgical monitors), surveillance (defense and public safety systems), and transportation (passenger information displays), may collect or transmit personal data in real time. This legislation requires that any such processing be carried out with the explicit consent of the data principal, and for a specific and lawful purpose. It mandates the implementation of robust technical and organizational safeguards to prevent unauthorized data access and ensures that personal data is processed in a transparent, minimal, and secure manner. Highness, as a manufacturer and possible system integrator dealing with data on behalf of clients (especially hospitals, defense units, and public transport authorities), must adhere to these norms. Additionally, if the scale of data processing is significant, the company may be obligated to appoint a Data Protection Officer and maintain audit logs under this law.

Medical Devices Rules, 2017 under the Drugs and Cosmetics Act, 1940

Highness is India's first and only manufacturer of medical-grade surgical monitors and holds OEM partnerships with global giants like Olympus, Karl Storz, Pentax, Getinge, and Dräger. These products qualify as "medical devices" under the Medical Devices Rules, 2017. This legislation governs the classification, registration, quality control, and post-market surveillance of medical devices in India. Devices are categorized based on risk, and manufacturers must comply with stringent standards, including clinical evaluation, product testing, labeling, and periodic audits. Registration with the Central Drugs Standard Control Organisation (CDSCO) is mandatory for manufacturers, importers, and marketers of medical equipment. Highness must also ensure that its manufacturing facilities meet Good Manufacturing Practices (GMP) and international certifications such as ISO 13485. These compliance requirements are vital not only for the domestic market but also for exporting such devices to international jurisdictions.

E-Waste (Management) Rules, 2022

As a manufacturer and assembler of electronic display devices—such as TFT-LCD modules, OLEDs, electroluminescent screens, and controllers—Highness falls under the category of "Producers" under the E-Waste (Management) Rules, 2022. These rules impose Extended Producer Responsibility (EPR), requiring Highness to register with the Central Pollution Control Board (CPCB), label its products appropriately, and provide a system for collecting and recycling end-of-life products. The company must ensure proper e-waste channelization through authorized recyclers and submit annual returns documenting its compliance. Failure to comply may result in environmental compensation levies. As Highness supplies products to sectors such as defense, transport, and healthcare, its adherence to these rules is also crucial from a contractual and reputational standpoint.

Data Centre Policy, 2020

While Highness may not directly own or operate data centers, its display systems are increasingly integrated with backend digital infrastructure for real-time monitoring, diagnostics, or passenger tracking. Clients such as Indian Railways, Metro systems, and defense agencies often require such integrated solutions. The Data Centre Policy, 2020 seeks to promote investment and development of a robust data center ecosystem in India by easing land acquisition, power supply, and regulatory clearances. Highness stands to benefit indirectly from this policy, as the growth of data centers and edge computing will create greater demand for real-time visualization and monitoring hardware, opening avenues for product integration and strategic partnerships in the data infrastructure space.

National Digital Communications Policy, 2018

Highness's business lines—spanning broadcasting, surveillance, transport, and connected medical devices—require robust digital connectivity, especially for real-time applications. The National Digital Communications Policy, 2018 aims to build a strong digital communication infrastructure across India, with focus areas including universal broadband access, IoT, 5G deployment, and machine-to-machine communication. This policy indirectly benefits Highness by creating an ecosystem where demand for smart, connected display systems grows exponentially. Moreover, as Highness increasingly caters to underserved regions and participates in digital transformation efforts (e.g., with Indian Railways and metro systems), this policy environment supports greater adoption of its solutions across public and private sectors.

TAX RELATED REGULATIONS

Income Tax Act, 1961

Income Tax Act, 1961 is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of this Act or Rules made there under depending upon its "Residential Status" and "Type of Income" involved. The Income Tax Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every company assessable to income tax under the Income Tax Act is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax, minimum alternative tax, etc

GST Laws

The Goods and Services Tax ("GST") is levied on the supply of goods or services or both, jointly by the Central Government and State Governments. It is governed by the GST Council. GST provides for the imposition of tax on the supply of goods or services and is levied by the Central Government on intra-state supply of goods or services and by the State Governments, including Union Territories. The GST law is enforced by various Acts, viz. the Central Goods and Services Tax Act, 2017, the relevant State Goods and Services Tax Acts, 2017, the Union Territory Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Goods and Services Tax (Compensation to States) Act, 2017, and various rules made thereunder.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import (bringing goods into India from abroad) and export (sending goods out of India). Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code) in terms of provisions of the Foreign Trade Development and Regulation Act, 1992. Imported goods in India attract basic customs duty, additional customs duty and cesses in terms of the provisions of the Customs Act, 1962, Customs Tariff Act, 1975 and the relevant

provisions made thereunder. The rates of basic customs duty are specified under the Customs Tariff Act 1975. Customs duty is calculated on the assessable value of the goods. Customs duties are administrated by Central Board of Indirect Taxes and Customs under the Ministry of Finance.

The Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. Professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. Professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

LAWS RELATED TO ENVIRONMENTAL LAWS

National Environmental Policy, 2006

The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

The Environment Protection Act, 1986

The act serves as comprehensive umbrella legislation designed to protect and enhance the environment by establishing a framework for the central government to coordinate the activities of various authorities created under earlier laws. Key provisions of the act empower the government to set environmental quality standards, control and reduce pollution from all sources, and prohibit or restrict the establishment of industrial facilities based on environmental considerations. Furthermore, it mandates that individuals or entities engaged in business activities must take measures to prevent or mitigate environmental pollution, ensuring a proactive approach to environmental protection.

Air (Prevention and Control of Pollution) Act, 1981

The act aims to protect and enhance air quality while preventing and controlling air pollution. Key provisions include the establishment of Central and State Pollution Control Boards, which are responsible for monitoring and regulating air quality. Under this legislation, industries are required to obtain consent from these boards prior to establishing or operating within designated pollution control areas, ensuring that air quality standards are upheld and pollution is effectively managed.

Water (Prevention and Control of Pollution) Act, 1974

The act is designed to prevent and control water pollution while maintaining or restoring the wholesomeness of water in India. Key provisions include the establishment of Central and State Pollution Control Boards, which are tasked with monitoring water quality standards. Industries are required to obtain consent from these boards before establishing or operating under this act, ensuring that their activities do not lead to the pollution of water sources and that water quality is safeguarded.

Water (Prevention and Control of Pollution) Cess Act, 1977

The act aims to generate revenue for the Pollution Control Boards by imposing a cess on water consumption by industries and local authorities. Key provisions stipulate that the funds collected are utilized to promote water conservation and pollution control measures, thereby encouraging industries to adopt more efficient and sustainable water usage practices. This financial framework not only supports environmental initiatives but also incentivizes responsible water management among businesses.

National Green Tribunal Act, 2010

This act establishes a specialized tribunal dedicated to the expeditious disposal of cases concerning environmental protection and the conservation of forests and other natural resources. Key provisions ensure effective legal enforcement of environmental laws, providing a platform for addressing grievances related to pollution and environmental damage caused by industries. By streamlining the judicial process, the tribunal aims to enhance accountability and promote timely resolutions in environmental disputes

Public Liability Insurance Act, 1991

This act mandates that industries handling hazardous substances obtain insurance to cover potential liabilities arising from accidents that may cause environmental damage or health hazards. Key provisions ensure that adequate compensation is available for affected individuals and communities in the event of an industrial accident. By requiring insurance coverage, the act aims to safeguard public health and the environment, ensuring that resources are available for remediation and support for those impacted by such incidents.

LAWS RELATED TO INTELLECTUAL PROPERTY

The Trade Marks Act, 1999

The Trade Marks Act of 1999 is India's primary legislation for the protection of trademarks. It offers statutory protection to trademarks used in commerce, ensuring exclusive rights to the trademark owner and preventing unauthorized use of similar marks that could cause confusion. The Act covers the registration, renewal, and assignment of trademarks and provides legal remedies for trademark infringement. This Act plays a crucial role in promoting fair trade practices and fostering a competitive business environment in India.

The Copyright Act, 1957

The Copyright Act, 1957 provides legal protection to creators of literary, dramatic, musical, and artistic works, as well as cinematograph films and sound recordings. The legislation also provides for performers' rights, moral rights of authors as well as moral rights of performers. Additionally, there was a reduction in discounts received and lower insurance claims compared to the previous F.Y.

The total cost of materials consumed increased significantly by ₹25,854.21 thousand, representing a 71.57% year-over-year growth, from ₹36,125.25 thousand in FY 2023–24 to ₹61,979.46 thousand in FY 2024–25.

Amount in Rs. Thousand

Particulars	**FY 2024-2025**	**FY 2023-2024**
Import Purchases	48,946.46	27,077.78
% change YoY	*80.76%*	-

% change YoY	94.41%	-
Total	**61,979.46**	**36,125.25**
% change YoY	71.57%	-

This substantial rise was primarily driven by an 80.76% increase in import purchases, which grew from ₹27,077.78

thousand to ₹48,946.46 thousand. In addition, customs duty on imports nearly doubled, increasing by 94.41% to ₹6,638.29 thousand from ₹3,414.66 thousand in the previous fiscal year. While domestic purchases also registered a growth of 13.53%, rising from ₹5,632.82 thousand to ₹6,394.71 thousand, the overall increase in cost of materials was largely attributable to the surge in imports and duties, reflecting a strategic or operational shift toward imported raw materials during the year.

The overall increase in the cost of materials consumed during Fiscal 2025 is primarily attributable to higher sales volumes. With the growth in sales by 31.47% in F.Y 24-25 over the previous year, the requirement for raw materials also increased, resulting in higher consumption costs as compared to the previous fiscal year.

- **Changes in Inventories**

The table below presents the component wise changes in the employee benefit expenses of the company:

Amount in Rs. Thousand

Particulars	FY 2024-2025	FY 2023-2024

ESIC & PF Charges	304.55	-
Staff Welfare	1,007.86	530.77
Total	**17,492.53**	**12,734.57**

From the above table, the growth in this component reflects adjustments made towards employee compensation, including annual increments, increased provision for gratuity, and expanded workforce in line with operational requirement . This rise was mainly driven by higher Salaries, Wages, and Bonus, which grew from ₹8,072.15 thousand in FY 2023–24 to ₹11,405.82 thousand in FY 2024–25., The increase in Director's remuneration from ₹3,600.00 thousand in FY 2023–24 to ₹4,382.51 thousand in FY 2024–25 also contributed to the growth of the total employee benefit expenses. Amount in Rs. Thousands, except %

Particulars	FY 2024-2025	FY 2023-2024
Advertisement Expenses	2,923.59	1,260.72
% of change YoY	*131.90%*	-

% of change YoY	*48.24%*	-
General Expenses	2,185.56	752.79
% of change YoY	*190.33%*	-

This increase is primarily attributable to the overall increase in business activity during the year, as reflected by the increase in sales and operational volumes The advertisement Expenses more than doubled, increasing by 131.90% to ₹2,923.59 thousand, indicating enhanced marketing and brand promotional activities. Legal & Professional Charges also saw a surge of 811.39% to ₹3,103.50 thousand due to increased legal, advisory, and compliance-related requirements amid business growth. The Service charges rose by 159.08% to ₹1,560.08 thousand, due to higher reliance on third-party services. The travelling & Accommodation Expenses grew by 48.24% to ₹8,212.97 thousand, suggesting more frequent business travel for better client engagement. The general Expenses almost tripled to ₹2,185.56 thousand, reflecting the overall scale-up in day-to-day operational activities. Additionally, there increase in Freight, Forwarding & Transportation Charges, Rent, Rate & Taxes, Repairs & Maintenance, Interest, Penalty & Late Fees on GST and Security Charges also contributed to increase in the other expenses in comparison to the previous F.Y.

- **Finance cost**

Finance costs primarily comprise of interest-on-Interest Expenses and other borrowing cost, amounted to ₹ 4,258.73 thousand in FY 2024-25, compared to ₹ 1,816.59 thousand in FY 2023–24, reflecting a increase of 134.44%. As of March 31, 2025, the company's total borrowings stood at ₹49,015.07 thousand, which was ₹12,595.08 thousand in the previous year, marking a significant rise of ₹36,419.99 thousand. This sharp increase is primarily driven by a substantial rise in unsecured borrowings at relatively high interest rates ranging between 15% and 18%. These loans were likely availed to meet growing working capital needs or to support business expansion. The increase in borrowing particularly unsecured high-cost debt reflects heightened capital requirements during the year, indicating expansionary activity, but it also highlights the need for prudent financial management to handle the growing debt burden and associated interest obligations. Therefore, the company plans to repay its high cost debt through funds raised through the IPO proceeds. For more details refer the chapter titled "object of offer" chapter on page no 88 of this Prospectus.

- **Depreciation and amortization**

Depreciation expense declined by ₹19,837.76 thousand, representing a 68.15% decrease from ₹29,107.14 thousand in Fiscal 2024 to ₹9,269.38 thousand in Fiscal 2025. This reduction was primarily due to the decrease in the amoritisation amounting to ₹6766.83 during the FY 2024-25 as compared to ₹27,478.01 for F.Y 2023-24. This has lead to the lower depreciation & amortisation charges during the year.

NET PROFIT AFTER TAX

Net Profit After Tax increased by ₹1346.38 thousand, representing a growth of 5.34%, from ₹ 23,879.62 thousand in Fiscal 2024 to ₹ 25,226.00 thousand in Fiscal 2025. This improvement was primarily driven by higher revenue from operations during FY 2024–25 as compared to FY 2023–24.

While revenue grew by 31.47%, the growth in PAT was relatively moderate at 5.34%, as the increase in sales was offset by higher expenses. The rise in costs was mainly on account of higher consumption of materials/purchase of goods and higher input cost, employee benefit expenses, finance costs, and other operating expenses. However, this impact was partly mitigated by a reduction in depreciation and amortization expenses during the year.

Although domestic sales grew in absolute terms from ₹96,077.86 thousand in FY 2022-23, In contrast, export sales showed a notable increase, rising from ₹664.63 thousand in FY 2022-23 to ₹1,183.11thousand in FY 2023-24. EXPENDITURE

- **Total Expenses**

Total Expenses decreased by ₹ 14,406.20 thousand and 15.54%, from ₹ 92,718.37 thousand in FY ended March 31, 2023, to ₹ 78,312.17 thousand in FY ended March 31, 2024. Our total expenses increased due to the factors described below:

- **Cost of material consumed/Cost of goods purchased**

Cost of material consumed for the year ended March 31, 2024, stood at ₹ 36,125.25 thousand whereas in financial year ended March 31, 2023, it stood at ₹ 37,487.54 representing a decrease of -3.63%. During the financial year ended March 31, 2024, the company reported decrease in the cost of materials consumed as a significant portion of production in FY 2023–24 was intended for sale in FY 2024–25, leading to a substantial increase in closing stock which rose from ₹13,753 thousands in FY 2023 to ₹38,057 thousands in FY 2024. This reduced COGS for FY 2023–24, as fewer goods were considered "sold" in accounting terms and this artificially boosted profitability, as production costs were deferred to inventory rather than expensed.

- **Changes in inventories**

Changes in inventories was ₹ (2,662.81) thousand in the financial year ended March 31, 2023, and fiscal year ended March 31, 2024, it was about ₹ (24,303.24) thousand. This resulted in increase in change of inventories in terms of value by ₹ (21,640.43) thousand.

- **Employee benefit expense**

In FY 2023–24, Employee Benefit Expenses increased by ₹ 3,257.54 thousand, reflecting a growth of 34.37% over FY 2022–23. This rise was mainly driven by higher Salaries, Wages, Bonus and Gratuity during the period. The table below presents the component wise increase in the employee benefit expenses during the period:

Amount in ₹ Thousand

Particulars	FY 2023-2024	%*	FY 2022-2023	%*
Director remuneration	3,600.00	28.27%	2,640.00	27.86%
Salaries, wages, bonus etc.	8,072.15	63.39%	6,524.23	68.84%
Gratuity	531.64	4.17%	-212.89	-2.25%
ESIC & PF Charges	-	0.00%	-	0.00%
Staff Welfare	530.77	4.17%	525.68	5.55%
Total	**12,734.57**	**100.00%**	**9,477.03**	**100.00%**

From the above table, the growth in this employee benefit expenses reflects adjustments made towards employee compensation, including annual increments, increased provision for gratuity, and expanded workforce in line with

operational requirement. This rise was mainly driven by higher Salaries, Wages, and Bonus, which grew from ₹ 6524.23 thousand in FY 2022-23 to ₹8,072.15 thousand in FY 2023–24 accounting for 23.73% increase over the previous year. The increase in Director's remuneration from ₹2640 thousand to ₹3,600.00 thousand in FY 2023–24 also contributed to the growth of the total employee benefit expenses. Additionally, the contribution to the gratuity and staff welfare expenses also saw an increase in absolute terms, in line with the higher salary base.

- **Other expenses**

In Fiscal Year 2023–24, Other Expenses rose by ₹ 1,687.78 thousand, marking a marginal increase of 7.98% from ₹ 21,144.08 thousand in the previous year. This rise is mainly due to the overall expansion in business operations, driven by higher sales and increased operational activity.

The increase in Other Expenses is mainly due to higher spending across various cost heads, including Travelling & Accommodation Expenses, Advertisement Expenses, Foreign Exchange Losses, Interest, Penalty & Late Fees on GST, Interest on custom Duty, GST & TDS and Security charges among others.

- **Finance cost**

The finance costs primarily comprise of interest Expenses and other borrowing cost., which amounted to ₹ 1,816.59 thousand in FY 2023–24, compared to ₹ 2,500.18 thousand in FY 2022–23, reflecting a decrease of 27.34%. The decline in the finance cost is attributable to strategical shift in the source of the loan as presented in the table below:

(Amount in ₹ thousands)

Particulars	FY 2023-2024	FY 2022-2023
Secured borrowings	12,097.31	9,765.51
Unsecured borrowings	497.77	1,691.57

From the above table, it is clear that the company undertook a strategic shift in its borrowing structure during FY 2023-24. The composition of the loan taken changed from unsecured borrowings to secured borrowings in order to reduce the overall cost of capital. Unsecured borrowings carrying high interest rates (15% to 18% p.a) were reduced from ₹1,691.57 crore in FY 2022–23 to ₹497.77 crore in FY 2023–24. In contrast, secured borrowings, which attract significantly lower interest rates (9.5% to 9.8%), increased from ₹9,765.51 crore to ₹12,097.31 crore during the same period. This strategic reallocation of debt sources demonstrated effective financial management and cost saving of ₹683.59 thousands during the year.

- **Depreciation and amortization expenses**

Depreciation and amortization expense increased by ₹ 4,334.79 thousand, representing a 17.50% increase from ₹ 24,772.35 thousand in Fiscal 2023 to ₹ 29,107.14 thousand in Fiscal 2024. The increase is primarily attributable to the amortisation of the intangible asset amounting to ₹23,945.10 for FY 2022-23 and ₹27,478.01 for F.Y 2023-24 and increase in the depreciation of the tangible assets of the company during the year.

NET PROFIT AFTER TAX

Net Profit has increased by ₹ 19,444.77 thousand from ₹ 4,434.85 thousand in FY 2022-23 to profit of ₹ 23,879.62 thousand in FY 2023-24. This improvement is driven by the following reasons:

- **Inventory Movement:** During the financial year ended March 31, 2024, the company reported decrease in the cost of materials consumed as a significant portion of production in FY 2023–24 was intended for sale in FY 2024–25, leading to a substantial increase in closing stock which rose from ₹13753.28 thousands in FY 2023 to ₹38,056.52 thousands in FY 2024, this reduced COGS for FY 2023–24,

- **Amortization of development expenditure**: In FY 2023–24, an amount of ₹29,107 thousands related to capitalised development expenditure (intangible assets such as product or technology development) was recorded under Depreciation and Amortisation, in accordance with Accounting Standard (AS) 26, which previously was recorded in the COGS. This shift led to reduction in COGS for FY 2023-24, thereby inflating the Margins**.**

- **Reduction in Finance cost:** The reduction in finance cost during FY 2023-24 is primarily on account of repayment of borrowings out of internal accruals and operating cash flows. The Company generated net cash from operating activities of ₹29,219.57 thousand in FY 2023-24, which enabled repayment of ₹2,898.85 thousand of long-term borrowings during the year. As a result, finance costs declined by 27.34%, from ₹2,500.18 thousand in FY 2022-23 to ₹1,816.59 thousand in FY 2023-24.

Indirect Tax:

1. Proceedings initiated by Adjudicating Authority for already issued SCN DRC-01 with reference id ZD2711240598249 with date of issuance 18/11/2024 The Maharashtra Goods and Services Tax (MGST) Department has issued a Show Cause Notice (SCN) in Form GST DRC-01 to Highness Microelectronics Private Limited (GSTIN: 27AABCH9142E1ZP) under Section 73 of the MGST/CGST Act, 2017 and Section 20 of the IGST Act, 2017 for the financial year 2020-21. The notice, issued by Deputy Commissioner of State Tax, Marol-502, Mumbai, highlights discrepancies in the company's GST returns (GSTR-1, GSTR-3B, and GSTR-9) that resulted in incorrect tax liability declarations. Prior to this, the department had issued ASMT-10 (Ref: ZD2708230441679 dated 18/08/2023) and DRC-01A (Ref: ZD271024126322X dated 31/10/2024), but the company did not submit any reply in DRC-01B, necessitating the issuance of this SCN. The department has identified a total demand of ₹28,25,489, which includes tax of ₹14,75,718, interest of ₹11,86,474, and penalties of ₹1,63,297.

   The key discrepancies noted include ineligible Input Tax Credit (ITC) claims from GSTR-3B due to non-filing by suppliers, excess ITC availed beyond reconciliation with GSTR-2B, ITC claimed beyond the prescribed limitation period under Section 16(4), interest on delayed payments, and non-reversal of ITC in GSTR-3B compared to GSTR-9. The ineligible ITC claim from non-filing taxpayers amounts to ₹3,693.60, which has already been paid via DRC-03 on 25/09/2023. The excess ITC availed in GSTR-3B/GSTR-9, which was not confirmed in GSTR-2B, totals ₹8,70,884, covering multiple categories such as import of goods (4A(1)), RCM-based ITC (4A(2) & 4A(3)), ISD credit (4A(4)), and other B2B supplies (4A(5)). The resulting tax liabilities are IGST: ₹2,96,352, CGST: ₹2,87,266, and SGST: ₹2,87,266, with corresponding interest of ₹2,44,490, ₹2,36,994, and ₹2,36,994 respectively, along with penalties of ₹29,635, ₹28,727, and ₹28,727, leading to a total amount of ₹16,76,452.

   Additionally, ITC claimed beyond the limitation period under Section 16(4) amounts to ₹5,62,084, as the company filed GSTR-3B after the prescribed cut-off date, violating Section 16(4). The tax liabilities for this issue include IGST: ₹3,27,102, CGST: ₹1,17,491, and SGST: ₹1,17,491, with corresponding interest of ₹2,69,859, ₹96,930, and ₹96,930, along with penalties of ₹32,710, ₹11,749, and ₹11,749, bringing the total to ₹10,82,012. Moreover, interest on delayed payments in GSTR-3B amounts to ₹45,887, which has already been paid by the taxpayer via DRC-03 on 25/09/2023. Another discrepancy pertains to non-reversal of ITC in GSTR-3B compared with GSTR-9, amounting to ₹42,750, where the company failed to reverse or reversed less ITC in GSTR-3B for the first six months of the next

financial year compared to ITC reversal specified in GSTR-9 Table 12. The corresponding tax liabilities are CGST: ₹21,375 and SGST: ₹21,375, with interest of ₹2,138 each, and penalties of ₹10,000 each, totaling ₹67,025.

An order under Section 73 of the GST Act has been issued by the Office of the Deputy Commissioner of State Tax, MAROL_502:ANDHERI:MUMBAI_SOUTH_WEST, Maharashtra, vide Reference No. ZD270225130438H dated 25/02/2025, against Highness Microelectronics Limited (GSTIN: 27AABCH9142E1ZP, Address: 1C3, 1st Floor, Gundecha Onclave, Kherani Road, Mumbai Suburban, Maharashtra – 400072) pursuant to SCN/Statement Reference No. ZD2711240598249 dated 18/11/2024 for the tax period April 2020 – March 2021 (F.Y. 2020-21). Since no payment was made within 30 days of the SCN, demand has been created on the basis of documents and submissions. The demand details are: IGST – Tax ₹6,23,454, Interest ₹5,42,405, Penalty ₹62,345, Total ₹12,28,204; CGST – Tax ₹4,26,132, Interest ₹3,70,735, Penalty ₹50,476, Total ₹8,47,343; SGST – Tax ₹4,26,132, Interest ₹3,70,735, Penalty ₹50,476, Total ₹8,47,343, aggregating to a total demand of ₹29,22,890 (Tax ₹14,75,718 + Interest ₹12,83,875 + Penalty ₹1,63,297). The order directs the taxpayer to make payment by 26/05/2025, failing which recovery proceedings shall be initiated.

M/s Highness Microelectronics Limited has filed an appeal in FORM GST APL-01 dated 22/05/2025 against the demand order Ref. No. ZD270225130438H dated 25/02/2025 passed by the Deputy Commissioner of State Tax, MAROL_502:ANDHERI:MUMBAI_SOUTH_WEST, Maharashtra, relating to the period April 2020 – March 2021, wherein a total demand of ₹29,22,890 (Tax ₹14,75,718 + Interest ₹12,83,875 + Penalty ₹1,63,297) was confirmed on account of alleged excess ITC claims. The appellant, represented by Manju Kejriwal (Authorised Representative), disputes the entire demand on grounds including: (i) excess tax paid in May 2020 GSTR-3B and subsequently reclaimed in August 2020 being revenue neutral, (ii) disallowance of previous year ITC of ₹34,282, (iii) incorrect computation of ITC on imports of ₹2,49,000 despite submission of BOE, (iv) denial of ITC for late filing during the pandemic despite supplier invoices being valid, and (v) erroneous treatment of ITC reversal in GSTR-9 leading to artificial liability. The appellant has deposited 10% pre-deposit of ₹1,47,574 as required and prays for setting aside the order, opportunity of personal hearing and cross-examination, and return/provision of relied-upon documents.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue/ offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹ 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue/ offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLMs, may finalize the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.
